SANITARIUM NOTES.

(Left over from last week.)

The new nurses are having their uniforms made.

At this writing only one patient is in bed at the sanitarium, all others being able to go to the table for their meals.

Some special cases at the sanitarium are being treated with electric light by means of a therapeutic lamp with several globes of different colors.

The senior nurses are teaching the junior nurses to take temperatures, count pulses, etc., and to keep charts recording the condition of each patient.

A representative of the sanitarium is present at all football games at Chemawa, supplied with necessary material to give "First Aid to the Injured," in case of accident.
