NO. 37

Our Anniversary Meeting

Last Thursday evening's meeting, February 25, will long be remembered by all who attended the meeting. Over fifty addresses were made, and many more stood ready to respond, but the lateness of the hour called for adjournment. The addresses of all teemed with loyalty to our school. Superintendent Chalcraft presided over the meeting. The addresses were interspersed with patriotic pieces by Chemawa's band and songs by the school. The entire student body and employees were present in the school chapel, which was packed to the doors, demonstrating that the school has grown beyond the seating capacity of our school Assembly Hall.

Addresses were made by the following: Assistant Superintendent Campbell, Mr. Cooper, Helen Dillstrom, Albert Garry, Eugene Williams, Mr. Enright, Mrs. Campbell, Miss Doose, Levi Sortor, Mr. Woods, Mrs. Smith, Mr. Smith, Miss White, Miss Royer, Mr. Teabo, Haynes DeWitt, Miss Koester, Miss Bender, Margaret Lowry, Mrs. Chalcraft, Miss Earlougher, Mr. Larsen Mrs. Bullard, Miss Steponeck, Miss

Brown, Mr. Swartz, Katie Henry, Mrs. Woods, Mr. Fickle, Mr. Watkins, Joseph Dillstrom, Anna Buck, Alex. Cajete, Harry Jones, Ralph Allen, Esther Napoleon, Violet Berner, Martha Decker, Frank Souvigner, George Williams, Michel Wilson, Fred Lewis, Mr. Gordon, Miss Grear, Miss Leader, Vernie Cliffe, Loulin Brewer, Mr. Towner of Siletz, Henry Dillstrom, Harry Queahpalma, Maude Lowry, Cyril Morrisette and Edward Ainsworth.

GENERAL INSTITUTE

GOES TO DENVER.

The selection of Denver for the General Institute should be gratifying to employees in the service, as this central location will enable many to attend. The dates announced are July 5 to 9, at which time the National Education Association will be in session, and this arrangement will enable employees to attend the general sessions and various department meetings of this Association.

In addition to papers and addresses by prominent educators, there will be demonstration lessons emphasizing Hampton and Tuskegee methods, and illustrating how the class-room and industrial
