Mrs. Donald P. Campbell, Miss Leone Campbell and Mrs. Smith were visitors at the Open Air Sanitarium on Monday. They found some of the patients in their individual cottages, some in the recreation cottages, while others were basking in the sun outside.

In the relay race try-out on Tuesday, Dennis Harnden, Ralph Allen, Fred Bain and Tom Powers came walking in after the try-out had been forgotten. The weak should be kept on a broth diet. Eighteen boys came in at the first and are now on the beefsteak table.

Howard C. Bowen, who for the last two years has been our very efficient industrial teacher and a most faithful employe in all school interests, left on Tuesday morning for Eastern Oregon where he has been appointed to the Forestry Service at a salary of \$900 per annum. Chemawa's good wishes go with him.

Mr. Woods is a very busy man these days, bobbing around from one place to another overseeing the work on the boys' new gym, new domestic science building, girls' old dormitory, coal house, and other repairs and improvements, besides looking after the work in the carpenter shop. In the meantime the carpenter apprentices are gaining valuable instruction by actual work.

One of the greatest events at Chemawa occurred on Monday evening when Dr. Lieurance showed his sporting ability by throwing Philip Moss of Montana in 2 min. 48 sec. in a wrestling bout; second bout, three minutes, draw. The Doctor is walking around with his hat on the side of his head and a chip on his shoulder and hunting for some one to knock it off. Up to date nobody has volunteered to tackle the contract.
