Call around and see the Rose Avenue League play baseball. There is a hot game every evening. Four teams entered the race, and one being so far behind, found it necessary to drop out of the race. There are only three teams now and are all evenly matched, two being even and one a little bit in the lead. These teams only have three or four more games to play and their season will be over. As soon as the season closes they will play a game with the first team and an admission of ten cents will be charged to cover some expenses they had to meet. You should attend this game. It will not be one-sided. They beat the first team before, why can't they do it again?

OFFICERS' PARTY

The commissioned officers of McBride Hall entertained their friends with a party last Tuesday evening in McBride Hall's parlor. The room was beautifully decorated with pennants and flowers which were artistically arranged by the girls. The evening was spent pleasantly in playing all kinds of games and singing. The refreshments which were daintily prepared by the young ladies were served in McBride Hall library. The tables were attractive with roses as the centerpiece. Each table was occupied by two couples, and loaded to its utmost with bon bons, sandwiches, potato salad, sweet pickles, oranges, strawberries and cream, ice cream and cake, and coffee. After the refreshment Mr. Ruthyn Turney favored us with a violin solo with piano accompaniment by Miss Dollie Case. The music was very much appreciated and a repetition was demanded, when the lights left us in the dark, which forced us to grope our way to our respective quarters.
