

Class History

(Continued from page 3.)

position. She has stood at the head of her class during the entire year. She has had special instruction in nursing and has had experience as a pupil teacher. She is Secretary of the Y. W. C. A. and was one of the representatives at the late conference at The Breakers and is a good musician. She is always ready to help at any entertainment. Margaret is from California and has been here since 1905.

Eugene Williams is from Washington and has received his education principally at this school. By his kindly and genial manner he has greatly endeared himself to all his classmates. He is a painter by trade and an active Y. M. C. A. man. He is a member of the choir and an active member of the Nonpareil Literary Society.

Vernie Cliffe came here from Washington in 1899 and went home in 1904. She returned to Chemawa in 1908. Miss Cliffe has an excellent voice and has added greatly to the pleasure of our school entertainments. Her classroom work has been excellent throughout and she has been well taught in Domestic Science.

The historian of the class came to the school in 1899 and is a printer by trade, having worked four years in that department. He is from Washington.

And now to sum up:

We have 21 in the class, five girls and sixteen boys. The girls have studied cooking, dressmaking, plain and fancy sewing, housekeeping, laundry work, nursing and music. Of the sixteen boys, five are engineers, one a gardener, two

are tailors, two printers, two blacksmiths, three farmers and one painter.

The class has contributed eight to the football team, five to the baseball team, two to the relay team, seven to the basketball teams, seven to the track team, three to the band and twelve to the choir.

We go out into the world better equipped for the battle of life than most boys of the same grade in the public schools, as our industrial work here teaches us the use of tools, etc. We hope to prove that our work has made us fit to earn our living and that Victory will be Labor's Crown.

LOCALS

Aaron Brazil is hard to beat picking berries.

Elmer Rabbie's father came to visit his boys.

Clarence Lewis went to Salem last Tuesday on business.

Charlie Dick can pole vault higher than any boy of his size in school.

Mr. Jorgenson and Mr. Liphart say that the small boys are the best pickers.

Woodie and Buster Towner are happy because their papa has come to see them.

Guy and Archie Russie are going home with their father to remain during vacation.

A number of people were out from Salem on Monday evening to attend the band concert.

A number of condemned mattresses and old quilts were burned on the side hill this week.
