9. In the Literary Department, the instruction covers the branches taught in Grammar schools of the country.

10. Some information about Chemawa might be interesting. The school was established by Major Wilkinson, February 25, 1880, being the second oldest Non-reservation School in the United States. From a small school as then established of twenty-five children it has grown step by step and year by year. Last year was the most prosperous in its history. The total enrollment for the year being 775 pupils, having an average of 615. The school year closed with 382 boys and 266 girls on the rolls. Under the new regulations it is now up to the parents and the guardians and the pupils to decide which school they desire to attend. Certainly the attendance the last year speaks volumes for the continued prosperity and good name of Chemawa.
