

(Continued from Page 3.)

The girls have an excellent Mandolin Club, the instrumentation consisting of violins, guitars, mandolins, cello, double bass and piano. Vocal music will be taught to those desiring it and piano lessons can be secured by those wishing to take them.

8. The Domestic Science department has a separate building especially adapted for the purpose and the facilities of Chemawa in this line are equaled by only one other school in the Service.

9. In the Literary Department, the instruction covers the branches taught in Grammar schools of the country.

Some information about Chemawa might be interesting. The school was established by Major Wilkinson, February 25, 1880, being the second oldest Non-reservation School in the United States. From a small school as then established of twenty five children it has grown step by step and year by year. Last year was the most prosperous in its history. The total enrollment for the year being 775 pupils, having an average of 615. The school year closed with 382 boys and 266 girls on the rolls. Under the new regulations it is now up to the parents and the guardians and the pupils to decide which school they desire to attend. Certainly the attendance the last year speaks volumes for the continued prosperity and good name of Chemawa.

Now a last word to the Indian parents and Indian young men and women desiring an industrial education at the Chemawa school. If you desire admission this term write at once to Supt. Chalcraft

If you want to enter Chemawa as a pupil fill in the space below, cut it out and send it to Supt. Chalcraft, who will immediately send you application blanks.

NOTES FROM KLAMATH AGENCY, OREGON.

Superintendent H. G. Wilson arrived home last week from Washington, D. C.

Miss R. M. Garrison, our intermediate teacher, resigned last week and left for Oakland, California. All missed her, as she was a good teacher and a very nice lady.

Charles Hood, the school farmer, has been transferred to Fort Hall, Idaho.

Mrs. G. N. Ginsbaur, the engineer's wife, is teaching in Miss Garrison's place until a new teacher comes.

Mr. G. A. Hull, the industrial teacher, is filling the positions of farmer and industrial teacher. He surely has his hands full.

Our new farmer will be here in about ten days.

Supt. H. G. Wilson left for Portland, Oregon, today on business.

The lake is frozen and our mail boat can't run, so the mail comes all the way by stage now.

Mr. Lister, our chief sawyer, goes to Yainax soon to run the mill at that place, and Mr. N. D. Ginsbaur will have charge of the mill here.

We have 67 boys and 54 girls at the school now.

Steamer Meziana came up yesterday with a load of lumber and material for the New School House.

The carpenters are getting along fine with the New School House, it will be done by January 10. The painters have it nearly all painted at present date. When done it will be one of the finest school houses in the state of Oregon in the Indian Service.

Thomas White, the forest ranger, has moved in a home here on main street for winter quarters.

The small boys are playing marbles every day now.

The weather is beautiful. We had a little snow, but all gone and the weather is like spring. Hope it will stay that way.

Mr. N. D. Ginsbaur, chief engineer and wife, have moved in their nice cottage on main street.

O. N. Ford, our disciplinarian, last week killed 25 fine ducks. They were served in the mess in grand style. He said the shooting made him think of the many championships he has taken part in the east.
