

LOCALS

A bunch of boys from Salem, representing the Y. M. C. A. intermediates, came down last Friday evening to play basketball against our middle sized boys. It was a hotly contested game from beginning to end, and although our boys were much smaller than their opponents—their team work told and when the game ended, the score stood 12 to 9 in their favor.

The class of 1911 elected their officers on last Friday afternoon. Those elected were: President, Manuel Swanson; Vice President, Matilda John; Secretary, Henry Darnell; Growler, Edward Ainsworth; Historian, Jas. Benjamin. After the election, President Swanson took the chair and called on the other officers to make a speech which was followed by a short talk by Dr. McChesney, who was present.

CUTTING TABLE CLIPPINGS.

NOTICE—We, the Tailor Shop Juniors, hereby challenge the small boys' home team to a game of basketball preliminary to the next social, providing this meets the approval of our Assistant Superintendent in charge. Members—Herbert Reinken, John Lee Willie Bains, Roy Van Pelt, Elmer Dillstrom, and John Stankus.

The Tailor Shop is pleased to report that everybody is well pleased with things as they are and we, as a whole, give thanks for all the good things that come to us in Chemawa. We are especially thankful for the various sums contributed for the purchase of a basketball by the tailor shop apprentices and as usual in

Chemawa when we get started we do things.

We submitted our proposition to our Asst. Superintendent in who is now in charge of Chemawa and he approved of the purchase. Checks were drawn upon the Chemawa Saving Bank for the various contributions by the tailor boys. The money was paid and the shop's crew appointed a committee of three consisting of: Wm Mose, Nick Hatch, Roy Van Pelt, to go to Salem and purchase one of the best basketballs obtainable from any reliable dealer whose advertisement appears in our Chemawa American.

Passes were obtained from Mr Smith so as to insure our safety in Salem and to comply with school regulations and we took the 9:20 electric car bound for Salem, full of hope for the future glory of the Tailor Shop basketball senior team.

And from all appearances we think we can beat the Band at the game.

No doubt all the industrial departments will (as is usual) enter a basketball team in our inter school shop's tournament. In order that every shop may be represented fairly it will be necessary that steps be taken to have only bonafide apprentices play on the teams representing the shops.

If any shop has less than five apprentices they may provide to add to their number by doing so 30 days before they contest with an opposing team. No boy will be allowed to play on more than one team except in the case of his representing Chemawa against a visiting team. If any shop has a first team player he will be eligible to play on his shop team.
