

(Continued from front page.)

The girls have an excellent Mandolin Club, the instrumentation consisting of violins, guitars, mandolins, cello, double bass and piano. Vocal music will be taught to those desiring it and piano lessons can be secured by those wishing to take them.

8. The Domestic Science department has a separate building especially adapted for the purpose and the facilities of Chemawa in this line are equaled by only one other school in the Service.

9. In the Literary Department, the instruction covers the branches taught in Grammar schools of the country.

Some information about Chemawa might be interesting. The school was established by Major Wilkinson, February 25, 1880, being the second oldest Non-reservation School in the United States. From a small school as then established of twenty-five children it has grown step by step and year by year. Last year was the most prosperous in its history. The total enrollment for the year being 775 pupils, having an average of 615. The school year closed with 382 boys and 266 girls on the rolls. Under the new regulations it is now up to the parents and the guardians and the pupils to decide which school they desire to attend. Certainly the attendance the last year speaks volumes for the continued prosperity and good name of Chemawa.

Now a last word to the Indian parents and Indian young men and women desiring an industrial education at the Chemawa school. If you desire admission this term write at once to Supt. Chalcraft

If you want to enter Chemawa as a pupil fill in the space below, cut it out and send it to Supt. Chalcraft, who will immediately send you application blanks

LEFT OVER PUPILS' ITEMS.

Alvin Smith is working on the sweeper detail.

Finnán Wilson is working on the garden detail.

The wagonmakers will soon begin putting together 325 tables.

A year's subscription to the Chemawa American would make a nice Christmas present for a friend.

The stumps in the pig pen are nearly all blown to pieces. The dairy boys are still blasting them this week.

The industrial boys are filling the low places around Brewer Hall and fixing the road by the commissary.

Mr. J. Burdette and his force of boys are busy making walks around the grounds out of the cinders from the power house.

Miss White spoke to the afternoon division on Monday. Her subject was "The Making and Destroying of Paper Money". It was most interesting and gave our pupils something new to think about.
