LIVE ITEMS.

Mrs. Campbell and Miss Irene visited friends in Salem Saturday and Sunday.

Sadie Cook arrived at the school yesterday from Siletz and has been enrolled.

Owing to the wedding last Thursday night, the meeting of the Estelle Reel Literary Society was postponed.

Mrs. Chalcraft has been sharing with her friends a nice lot of persimmons that Supt. Chalcraft brought from Illinois.

The girls' basketball team have not had any practice the past two weeks on account of the gym being otherwise occupied.

Miss Wolfe, a former Carlisle student, arrived at the school this week, and is filling the position of matron for the small boys.

Next Friday our boys will play the quintet from Philomath College on our floor. This is our next game in the Willamette Valley League.

Mr. Woods has made two filing cabinets for the office for the pupils' checks that will be great labor-savers. They are neat pieces of work.

The material is all here for the repair of Brewer Hall, where work will go forward as soon as the work on the boys' brick dormitory is completed.

The domestic science department in their new quarters are happy and prosperous and with the facilities we now have Chemawa's domestic science should turn out advanced cooks and housekeepers.

At the conclusion of the game of basketball on Wednesday evening between Chemawa and Klamath Falls a reception was tendered the visiting team. Light refreshments were served and all in attendance seemed to have an enjoyable time.

We are looking forward to some musical programs. Mr. Turney has promised us a concert by the Mandolin Club and orchestra; Miss Campbell a public recital of her music pupils; and Mr. Larsen says the band is ready with a concert whenever called upon.

Dr. E. E. Fisher, of Salem, who was temporary physician at Chemawa during the interim of Dr. Lieurance going to Crow and the arrival of Dr. Fulkerson, made many friends while at Chemawa and by his care of the sick endeared himself to all who had aches or pains.

As one of the pupils remarked, "things are certainly doing at Chemawa this winter." The student body never were more contented Basketball and kindred sports have served to fill in the time not employed at work or school. The Industrial departments all show good progress; the academic department reports that the advancement of the pupils in their studies is generally marked and in every direction good will and fellowship seems to prevail.
