Some fellows are so rapid that they run right away from prosperity.

Even with a square deal some of us are bound to get poor hands.

It isn't enough to hope for the best. In these days of competition you must fight for it.

Members of the Quinault tribe of Indians assembled in council, at the call of Chief Mason, last Saturday received nearly \$10,000 in cash for the right of way for the Northern Pacific railroad over their lands. The money was paid into the hands of the property owners by officials of the road. The right of way is along the coast line, and follows the best obtainable route. It is believed that this purchase means the extension of the railroad from Moclips to the straits in the near future.
