

LOCALS

Miss White gave us an interesting chapel talk today.

The boys and girls went out with their teachers on Friday and gathered flowers for the Easter decorations in chapel.

Orin French's chapel talk this morning was of a very high character. He was loudly applauded after he had finished his address.

Mr. H. N. Stoudenmeyer visited the school in his auto during the week and Superintendent Chalcraft, Mr. Turney and Mr. Larsen took a spin over the surrounding country.

The cabinet department of the wagon shop has turned out a very nice center table and mantlepiece for the reception room of the Domestic Science Department, and they are now in place. They are a credit to the workmanship of the department.

Chemawa's lawns never looked at this time of the year as pretty as they do now. Mr. Dillstrom with his force of "Industrials" are busy in season and out and the employees on all sides have co-operated in beautifying the grounds around their homes and departments. Between four and five hundred choice roses have been transferred from Chemawa's nursery to the lawns the past two weeks. The old bushes are looking well and buds are starting.
