

WOOD BUTCHERS.

We have twenty-five dinning tables done and expect to get them all out in a few weeks.

Simpson Mathews, is about as careful a workman as we have. He always puts in a little extra time on his work, and the finished job shows it, for he always gets his work out the way he is instructed.

Walter Morrisette can do good work and if he will only try to get in a little more time he will learn much faster.

Peter Bushman! Well, we all know him. He is a mechanic; he cannot help it. He is also studying Mechanical Drafting.

Fiction about steel: Many people imagine by blowing their breath on the blade of a knife they can tell whether the blade is steel or pot-metal. Now, a person's breath will adhere to a potmetal blade and fade away the same as on steel, but nine out of ten men don't know this, and that is the reason why so many people carry inferior pocket-knives. Don't buy any edge tools unless it is sharp; if the factory cannot sharpen them, you cannot.

The following formula known as Chinese cement produces a cement for porcelain, glass, fancy work and jewelry so strong that wood or porcelain can be joined together so firmly that they will break any where else rather than where cemented. Take of finest pale orange shellac (broken small) 4 ounces, strongest rectified spirits 3 ounces, and digest them together in a corked bottle in a warm place until dissolved. It should have about the consistency of molasses.

To prevent scars from burns: In the healing of burns and scalds, where there is danger of contracting scars,

rub the new skin several times a day with good sweet oil. Persist in this rubbing until the skin is soft and flexible.

If any boy or girl wants to know anything about the International Correspondence school of Scranton, Pa., ask C. E. Frye

Will some pupil tell us how many shingles it will take to cover one side of a roof 12 feet wide and 20 feet long? Also how many lath a room 12x16 ft, ceiling and all, with walls 9 feet high, if it requires 14 lath per square yard? And how much flooring will it take to floor the same room, adding one-fifth for matching? Some student please answer this next week.

PUPILS' ITEMS

Ella McCully is expecting to take music lessons soon.

The carpenters are doing some repair work on Brewer Hall.

Joe Charles and Willie Lee went to Salem on Tuesday morning.

Sophia Hoptowit is now working in the laundry and is doing nicely.

The junior class have started reviewing their Word Analysis this week.

We all enjoyed the band concert given last Sunday afternoon in the band stand.

All the relay boys are training hard and hope to defeat the Portland Y. M. C. A.

Annie Walker is painting a beautiful picture for one of her friends at McBride Hall.

Eva Klutch and Annie King are now working in the laundry and they both take an interest in their work and do it very neatly.
