

LOCALS

Ernest Brewer was a Chemawa visitor this week.

Mr. and Mrs. Vick made a flying trip to the school.

Mr. Carl Plucker of Umatilla made a short visit to the school this week.

This is certainly delightful weather and makes one feel that life is worth living.

This afternoon we are playing the Willamette University on their grounds.

Mrs. Brewer and a number of friends spent Sunday afternoon at Old Chemawa.

Mr. Chalcraft took some very good photos of our seven-foot field of rye hay.

Boliver killed his first rat on Thursday and showed that he will be a good ratter.

Mr. Enright made a hurried visit to Willamina the other day on business for the school.

The junk men were on hand this week, taking away some of our accumulated junk which was sold to the highest bidder.

The American is in receipt of an invitation to attend the commencement exercises of Sherman, which will be held May 15 to 19 inclusive.

Mr. Henderson is making extensive improvements to the front of his store. When completed it will look quite city-like with the large open front.

The friends of Dr. W. Q. Tucker were glad to see him on Wednesday when he dropped in on Chemawa for a short visit. The Doctor is located at Forest Grove, this State.

We play the strong Mt. Angel baseball team tomorrow afternoon. We will have a double-header game, the second game being played by the Kaiser School against Woodburn.

Mr. Swartz has finished cutting our spring rye this week and he brought some of it to the office which was an average sample of the yield. It measured 7 ft. 3 in in height, not including the roots. Who can beat it?

Mrs. Elizabeth Leudke-Smith has been reinstated in the service as Assistant Matron at Standing Rock, where she and her husband are located. Mr. Smith

was Asst. Engineer here while Mrs. Smith was one of our teachers.

The morning pupils were caught in a shower on Tuesday at recess. Right after they were dismissed it began to rain and some of them were like the man we have read about who "did'n't have sense enough to get in out of the rain."

The school had a short visit from Mrs. Lamereaux of Seattle this week. Mrs. Lamereaux was Miss Elsie Murphy, who was matron of Chemawa during the Superintendency of Mr. Lee in the '80's. She of course would not have known Chemawa as the same school.

CHEMAWA-WILLAMETTE.

Captain Smoker of the Chemawa Braves last Friday could have sent this message on the back of an old envelope or engraved on a gold card, either would have been acceptable. "We have met the enemy and they are ours; eight runs, six hits, 10 strikeouts, three errors, and a grand sociable. Yours with great joy and gladness.

It certainly was a great game from our way of looking at it. Haight was there with the goods and was supported in good style. Only once did a Willamette man reach third base, but Haight proved master of the situation and pulled himself out of the only tight place of the game. At no other time during the game did the boys from W. U. have as good a chance to score. Our boys played their positions well and if they will take more interest and put some ginger in coaching the base-runners we will be better satisfied. Larsen made two runs by squeeze plays. Benjamin received an injury to his hand while running bases and Teabo was called from short to do the catching stunt. We play the strong team from Mt. Angel College tomorrow and expect to give them a hard game.
