

NOTES OF THE RACE.

On the table at the dinner in the evening was a profusion of red and white roses, representing the colors of the school.

Who was it that called for tea at the banquet and receiving a pot of tea was in a dilemma what to do with it? And who was it that did not know how to get electric light in the room?

The boys certainly enjoyed the course dinner which was given them at Watson's Restaurant, after which they were taken to the Orpheum Theater, having seats together in the front of the house.

The boys received all kinds of compliments both from the restaurant management and from the management of the Imperial Hotel, who said that they were as gentlemanly a lot of young men as had ever been in their hostelry.

While Frank Dan's time was slow, yet he added more time to the lead than any other relay runner. The course over which he ran between Canby and New Era had been plowed up and he had to run over ties and stones and soft dirt, but he overcame the obstacles better than his opponent.

The two cups this year which the relay boys won were presented by the Honeyman Hardware Company of Portland and Mr. Watt Shipp of Salem. They are both beauties and are the handsomest cups the relay team have won. We certainly thank the donors for their handsome offering.

The ten handsome medals were presented by the merchants of Salem whose names were given in our last week's issue, and the same may be said of them as of the cups. They are the handsomest we have ever won in the

four races. At an early day they will be presented to the winning team.

Among those who followed the race in the automobiles were Asst. Supt. Campbell, Mr. Harry E. Mann, Mr. Arthur D. Van Tassel, Mr. M. W. Cooper, Mr. Henry Dillstrom, Mr. Clarence Cooper, Mr. Edward Ainsworth, Mr. F. G. Plummer and son; all in three automobiles. Mr. A. M. Grilley, Secretary Stone of the Portland Y. M. C. A. and others in three automobiles representing the Y. M. C. A.

Mr. F. G. Plummer of the Northwest Buick Co. contributed much to the success of our arrangements in the relay race. The Chemawa team certainly have a great many thanks to extend to Mr. Plummer who with "The Buick" truck picked up each runner after he had completed his relay and brought him forward, together with the stopwatch showing the difference in time between the two runners and carried the entire team into Portland so that the nine members of the team who ran the first relays were at the finish when Ben Bearchild handed the message to Councilman Sellars, the representative of Mayor Simon. Then Mr. Plummer took them all over town showing them the points of interest, after which they returned to the Y. M. C. A. building, had a shower, and then came to their headquarters at the Imperial Hotel.

 LOCAL

Mr. Chalcraft returned Tuesday from a trip to the Montana and Washington reservations and schools.

Supervisor Lipps dropped in on his way to Oklahoma on Wednesday afternoon. We regret that his duties called him so that his visit with us was short.
