

 LOCALS

Hello Bolivar!

Miss Troutman returned to Chemawa on Monday.

Frances Swartz is visiting her father again this week.

Fred Lewis left on Saturday night for his home at Wrangell, Alaska.

The engineers, are installing a new pump in the tower well this week.

Mr. Frye has completed two neat boxes for Supt Chalcraft for the lantern slides.

Mrs. F. Delevan, and son, Eneas, of Portland, are visiting Mrs. Liphart, this week.

Ed. Teabo, a visitor of Mr. Teabo, returned on Tuesday morning to Grande Ronde.

The brick work of the plumber shop was repaired this week by Messrs. Mudge and Lansing.

Abraham Hudson, an ex-pupil of Grande Ronde, was a visitor on Tuesday for a few hours.

Ruth Brewer took part in the recital given in Salem on Tuesday evening by one of Miss Weller's classes of piano pupils.

Eugene Anderson and Manuel Swanson, the Chemawa Y. M. C. A. delegates to the student conference, held at Columbia Beach, Oregon, returned home on Monday evening and report that they had a very nice time.

On last Saturday the baseball boys were privileged to use the pitchforks and cross bats with the hay. They have since disappeared and have beat it to the tall timber in order to get in trim to

punish whoever they may play on the Fourth of July.

---

 WOODBUTCHERS.

We are making our last round, gathering up all furniture that is out of commission. If you have any you will please do yourself a favor to notify us so we can get it and put it in repair, for after we have made this round, and you fail to notify us, then you will be required to fill out your regular requests and have them approved. This is the last notice.

We keep adding on new boys every few days. Chas. Scott is a late addition; he is from Alaska. He is shining up the superintendent's dining table.

Henry Olsen is wiring up the sewing-room chairs. Girls, you are rougher on chairs than the boys. We get more chairs from your rooms than from the boys'.

Morrisette and Jackson were on the collecting committee Monday morning. They were gathering up the fragments of furniture.

Simpson Mathaus is making library tables for Mrs. Doherty and the Y. W. C. A. room. When we deliver them take notice, for Simpson is a promising student.

Elmer Prucker is one of our jolly fellows and can make good. We will show some of his work later.

We are pleased to know that we will soon receive a shipment of a new band saw, and new vices and other machines much needed in our department.

We want to thank our superintendent for favoring us with these machines and give him our promise to get out our work faster and better in the future.

Today is the last of the fiscal year. We have made quite an advance in our studies in this department the last year, but by adding Mechanical Drafting and closer and harder study we mean to make 1911 a banner year. Keep an eye on us.
