Miss Jane Evans of Portland has been visiting Miss Gertrude Brewer during the week.

Archie Lane and James Logan have both returned to school. They arrived on Monday evening and are from Siletz.

We experienced some very "nipping" frosts for a few mornings recently. It made a fellow step lively to keep up a good, healthy circulation.

James Smith has returned to school from his home in Warm Springs, Oregon. He is a senior this year. Lillie and Roy and Ralph Braden have also returned to school from their home in Athena, Oregon.

Thursday was the regular social evening for pupils, but owing to a party of the "revolving detail" no attempt was made to carry out the regular social function. However, Supt. Chalcraft allowed the students to participate in a general social in the "Gym" on Friday evening.

We regret to publish the fact that little Oscar Grant is dead. The exact date of his death is not known to us,

but it occurred in Eureka, California. Oscar left last summer for his home in that city. He was a bright little fellow and we are very sorry to learn of his demise.

In a letter received from Eugene Williams, of the class of 1909, he writes from Ft. Klamath that he is getting along nicely, that he saw a number of ex-students of Chemawa and from what he can see and hear they are keeping to a straight line and do credit to themselves and Chemawa. Eugene was always a good Chemawa student and was always in front rank of every student body affair while in the school, and if he will do as well in the future as he did while a member of our student body his future is assured.

ANDREW CARNEGIE'S ADVICE TO YOUNG MEN.

1. Never enter a bar-room; nor let the contents of a bar-room enter you.
2. Do not use tobacco.
3. Concentrate. Having entered upon a certain line of work, continue and combine upon that line.
4. Do not shirk; rather go beyond your task. Do not let any young man think he has performed his full duty when he has performed the work assigned to him. A man will never rise if he acts thus. Promotion comes from exceptional work. A man must discover where his employer's interests lie and push for these. The young man who does this is the young man whom Capital wants for a partner and son-in-law. He is the young man who, by and by, reaches the head of the firm.
5. Save a little always. Whatever your wages may be, lay by something from them.
