8. The Domestic Science department has a separate building especially adapted for the purpose and the facilities of Chemawa in this line are equaled by only one other school in the Service.

9. In the Literary Department, the instruction covers the branches taught in Grammar schools of the country.

The school was established by Major Wilkinson, February 25, 1880, being the second oldest Non-reservation school in the United States. From a small school of twenty-five children it has grown step by step from year to year. Last year was the most prosperous in its history. The total enrollment for the year being 775 pupils, having an average attendance of 615. The school year closed with 382 boys and 266 girls on the rolls. Under the new regulations it is now up to the parents and the guardians and the pupils to decide which school they desire to attend. Certainly the attend-

ance the last year speaks volumes for the continued prosperity and good name of Chemawa.
