

and is now in a class by himself. When Jos. cleared the bar at 5 ft. 6 in. he broke the school record by two inches. Early in the season he met with a severe accident and sprained his ankle and was kept off the field for some time but managed to get on a pair of spikes Tuesday and he surprised the onlookers. He says next year he will make the students stand around and notice.

The discus-throwing was the next on the program in which Powers broke the school record by sailing the same 106 ft. 3 in.

The 120 yd. hurdles were also copped by Powers who made exceptional by good time.

Jim, the distant runner, took the mile run and finished with a sprint which brought the spectators to their feet.

Next in order was the pole vaulting stunt in which Johnnie Service tied the school record by clearing the bar at 10 ft. 3 in. A new bamboo pole has been bought in Portland by Mr. Smith which is 14 ft. long; this will be a great help to the boys.

The next and last event on the program was the mile relay between the small boys of Brewer Hall and the boys of the small boys' home. Good time was made by each runner, causing the race to be close and exciting. The boys of Brewer Hall won by a small margin.

On Tuesday evening everybody congregated at the gymnasium to be present at the entertainment given by pupils of the various grades of the school. Many visitors were with us on this occasion.

During the first few numbers we thought of making special mention of the work of certain pupils and grades, but as the program progressed we gave

up all idea of personal mention and now speak of it as a whole. It was splendid in every way—pleasing to the audience and most creditable to teach-
