"This is my brother, Paul Pendlehaven, my child," said Doctor John. "He wants to thank you for bringing

back the picture." "Sit down a while," murmured Doctor Paul.

She squatted unceremonlously upon the bed beside the pig. "Our little friend here is in trou-

ble," said Doctor John to his brother, "and wants work. I'll come back after three." Then he went out. For a long time Paul Pendlehaven looked at Tony, and Tony looked back at him. Tony was mentally pitying

him with all her loving heart. He was thinking over the conversation he and his brother had had about this strange little girl who had brought from a thief's den the picture of his baby. "How would you like to stay here a

while with me?" he asked at length. Gray eyes widened to the fullest extent of fringed lids. "Lordy," was all Tonnibel could say,

She didn't want to cry, so to keep from it, she bit down on her red underlip. He had said in positive tones that he wanted her. It did seem good to be wanted somewhere. What she did then Pendlehaven remembered many a long day. She bent over and kissed his hand. The warm red lips thrilled him as vibrant youth always thrills weak-

"Can Gussle stay, too?" she pleaded presently. "She'd be without anybody if she didn't have me." "Yes," said Pendlehaven, as his brother opened the door, "You can

Tonnibel was glad to escape. Katherine hadn't said a word to her, but both girls had eyed each other ap praisingly, and Katherine suddenly came to a resolution, which she made known to her mother the moment they were alone.

Mrs. Curtis and her daughter had been

At first John Pendlehaven had insisted that Tony attend the family table, but both Paul and the girl decided that her meals should be served in the sick room. Perhaps if Philip MacCauley hadn't been interested in a certain liftle girl on a canal boat, his curiosity would have taken him to Paul's apartments to make the acquaintance of the little companion John Pendlehaven

Her heart almost leapt out of her month. Perhaps her mother was coming home, perhaps her father. Tremblingly she peeped out through the aperture. She drew back instantly. Reginald Brown was approaching the canal boat. She heard him cross the deck, and then the footsteps ceased. She hoped with all

her might and main that he wouldn't think of coming downstairs. But that was exactly what he did She crouched up against the bunk, as the boy stepped into the cabin. When he saw her a slow grin

He sprang at her, and Tony screamed twice with all her lung power. Then something happened! Someone grasped hold of the man who had snatched her into his arms, and for what seemed an interminable time two forms struggled together in the small cabin. For a few seconds Tony didn't realize who Reggie's assallant was; then with a grip at her heart she recognized Philip's white face as with terrible strength he dragged Reggie up the steps. By this time the two men were struggling on the deck, and as if impelled by some unknown force Tony staggered up the It was just as she reached the top

that she saw Captain MacCauley, by one mighty effort, lift the struggling figure of the other man and throw him late the lake. A sharp ejaculation fell from her lips. Never had she seen such strength, never had her heart that when Philip swung back and rushed toward her, she sank down at his feet. As falls away an old garment so fell away Philip's anger. Ten-
