Held Meeting**

The Turner Co-operative Cream Association held its annual meeting last Saturday, Jan. 20th, in the new high school building with about 50 members in attendance. Plans for next year were discussed and the election of officers was held at the morning session. The President, C. A. Bear, and the two Directors, A. E. Robertson and M. Fillet, were re-elected unanimously. We had the pleasure of the attendance of Harry West, veteran Jersey breeder and former importer of Jersey cattle, who made a few remarks along this line. At 12:30 p. m. the meeting adjourned to Odd Fellows hall for dinner where every one did justice to a bounteous feed served by Mrs. Brower, assisted by the wives of the members of the association.

The afternoon session was called to order about two o'clock when the crowd sang "America" led by Miss Fay Miller; also two splendid readings were enjoyed by the members, given by Miss Thelma Delzell and Miss Fay Miller. The rest of the afternoon was given over to Dr. Simms of O. A. C. who spoke very effectively on tuberculosis and contagious abortion, subjects all dairy men are interested in. Before the close of the meeting, resolutions were passed unanimously to be presented to the legislature recommending the passage of Ed Cary's so-called ice cream bill raising the required amount of butter fat from 8 to 14 per cent and forbidding the use of milk products in the manufacture of butter substitutes. Everyone felt the day was well spent and a successful year is anticipated for 1923.

**High School Notes**

Uona Thiesen, Editor

On Thursday our boys went to Salem and were handed out defeat by the Willamette Frosh. At the end of the first half the score was 10-13, at the end of the second half the score was worse. We didn't feel so bad though as they won from Jefferson Hi of Portland.

Professor Fletcher called an assembly of the grades and the high school to make some announcements.

One of these was the announcement of the sale of Student Body tickets. If obtained these will give admission to any student body activity.

Mrs. Delzell visited on Tuesday and gave a short talk.

Some of the girls are still discussing the idea of a sewing club.

In the regular theme work for Monday of each week the following original poems were decided best among twelve which were written as a test for ability in handling the subject of "Poetry" which has been up for discussion in Mr. Fletcher's English class for Juniors and Seniors.

**A SAD REMEMBRANCE.**

By Ruth Drager.

The ground with snow was white  
For it had snowed all night.  
A silence seemed to reign  
O'er all the whole domain,  
By fireside at home

Two old folks sat alone,  
Though not a word was said  
Both thought of one long dead,  
Of how she used to play  
In snow on such a day.

How when the birds so tame  
To her for want of crumbs came  
She held them on her knee  
As happy as could be.

How dreary days so long  
Were brightened by her song,  
That voice has long been stilled  
The house with silence filled,  
Under the deep white snow  
She lies and does not know  
The thoughts that fill the mind  
Of those she left behind.

**THE OLD SCHOOL HOUSE.**

By Avalyn Delzell.

Good-by old friend, your homely face,  
Belov'd from childhood's earliest day,  
No paint your rain washed walls can  
trace,

Yet dearer far each worn door-way,  
And pride cried out, "Build us a new!"  
'Twas there I learned life's golden rule,  
And memory still keeps faith with you.

The old school house of forty years,  
The worthy friend of young and old,  
Has shed its sunshine and its tears,  
Taru heats as true as molten gold.

Good-by old friend, I'm truly glad  
Your worn old walls may yet remain,  
And in a gym each lass and lad,  
Will make old echoes ring again.

Love me in the lightest part;  
Love me with thy thinking soul,  
Love me with thy thoughts that roll.  
Love me in thy gorgeous "airs,"  
Love me kneeling at thy prayers  
With the angels' round thee.

**Safety First**

Spooning on the highways in motor vehicles and attempts to drive with "only one line" is to be legally tabooed if House bill No. 103 becomes a law. This spooning and hugging business while driving a car has got to be stopped. It was only some weeks ago that our attention was called to the fact that a certain Turner auto party went into the ditch near the T. B. hospital. Whether the parties were spooning or not we don't know, but we believe they were—the lady passenger was such a dear, sweet girl, anyway.

Any effort of Governor Pierce to close up the several departments of state and to form a commission of high salaried democrats, will not go very far in winning public approval unless the people have changed their minds in the last ten or fifteen minutes.

**PHANTOM LION IS  
AT LAST BAGGED**

For Four Years Bounty of \$500 Has Been Hanging Over Montana Cattle Killers.

**TOO CUTE FOR TRAPS**

Huge Beast Outwitted by United States Biological Survey Hunter and His Dog—Adopts Native Tricks of the Fox.

Washington.—The monarch of the Wild West has been killed, it was reported to the biological survey here. He was a huge mountain lion, measuring 9 feet and 8 inches from tip to tip. He was king among the Montana cattle killers, possessed of remarkable cunning and daring. His existence was a charmed one. For four years a bounty of \$500 has been awaiting any hunter who would exhibit his pelt.

He would strike the cattle at night, kill six or eight steers and vanish, to show up in some place far removed.

Hunting parties were organized and his great tracks trailed through the snow. But in all cases previously they suddenly would break off and all trace of him be lost. He was referred to as the "phantom lion." Cattlemen despaired of his ever being killed. No trap, however carefully concealed, tempted him.

But Beebe Got Him. When Chauncey E. Beebe, whose exploits make him champion big game hunter of America, took up the trail, the cattlemen discouraged him, he reported. Where others had failed he insisted that his especially trained hound, "Jerry," would succeed.

With no one but "Jerry" for a companion, he struck off for the deer country, near Nyack, Mont., in the hope that he could locate the lion feeding on deer in the local country.

After four days he found the trail and put "Jerry" on it. The dog followed it for upwards of fifteen miles, when it abruptly ended.

Beebe reports that it was then he suspected the seasoned old killer had adopted the native trick of the fox, that of doubling, running back a mile or so and then leaping a safe distance to the side for a fresh start.

Both sides of the old trail were followed and within a few hours a fresh one was picked up. The lion, said to be the biggest ever killed in Montana,

Arrived in Time to Shoot Him. was "tired." Beebe arrived in time to shoot him just as he was descending to attack the hound. A rifle shot penetrated the lion's brain.

**Record Day's Shooting.** The office reports of the biological survey show, however, that Beebe had just begun to fight.

He decided that he was in good "lion country," and would stay there a few days. In doing so he established a record that is without an equal in the annals of American big game hunting. And at the same time it crowns "Jerry" as the champion big game hound of the United States.

In one afternoon, from 1 o'clock until 4 o'clock, Beebe and "Jerry" located and killed five full-grown lions.

**Philadelphia Fair to Cost \$20,000,000.** Philadelphia.—The board of directors of the Sesqui-Centennial Exhibition association approved plans for an expenditure of \$20,000,000 for the 1926 world's fair. The site decided upon is along the Parkway and the Schuylkill river and comprises 550 acres.

**U. S. Tea Imports Increase.** Tokyo.—Japanese tea exported to the United States since the beginning of the current year amounted to 16,000,000 pounds at the end of August. This increase approximated 6,000,000 pounds, compared with the returns for the corresponding period last year.
