Prospects Bright for Better Horses

Both farm and city are demanding more and better horses, according to the Sears-Roebuck Agricultural Foundation.

Despite the 15,281,265 automobiles and trucks in the United States, there are 18,265,000 head of horses and mules on farms today and 2,300,000 horses pulling loads in city streets. The output of the auto and trucks reduced the equine workers in cities by 2,000,000 between 1910 and 1920, a reduction of 30 per cent. But during the last three years there has been a decided trend in the opposite direction.

Between 1910 and 1920 the horse population on farms decreased 10 per cent. On January 1, 1924, there was 18,265,000 horses, compared with 21,555,000 six years before. This was the smallest number since 1905. Still, 97 per cent of all field work is done by horses and mules.

Around 1915, under the influence of stimulated war production and replacement by mechanical power, horse prices began to decline. By January of this year average values per head were the lowest since 1907. Male prices, unlike horses, advanced during the war, reaching their peak in 1923. In 1923 there was a third more horses and mules sold than during the previous year.

Good mares and stallions are scarce. During the war breeding kennels multiplied. The number of colts produced failed to keep pace with the losses by death. Between 1919 and 1920 horse and mule colts combined decreased 22 per cent. The largest percentage of the horse population is old.

Low prices will continue to discourage horse and mule production and cause still further decrease in the population until the average price turns upward. Unless breeding operations are increased, demand will soon be greater than the supply. How soon the market turning point will be reached for the rank and file of horses is uncertain. Prices have already improved for the better than medium grades. The constantly increasing demand along with the limited supply is indicative that the turning point is not far off.

SHELL CO. COOPERATES WITH FOREST SERVICE

General practical co-operation of big corporations with the Forest Service Department of Agriculture in preventing forest fires was inaugurated today by the Shell Company of California, which began work on repainting its twelve-foot yellow-and-red dial signs, on highways all along the Pacific Coast, with posters urging motorists to help prevent fires.

Every Shell station has been made an auxiliary of the Forest Service, to report incipient fires immediately where it is more convenient to reach a Shell station than a forest ranger.

The new dial signs, representing the work of one of the best scenic artists of the state, vividly emphasize the hazards to which the woods are liable through a variety of careless acts, and appeal to the automobilist not only to use caution himself but to spread the gospel of prevention wherever he goes. To further this end, large editions of educational matter have been prepared by the Shell Company for free distribution.

As the Shell Company's stations and dial signs cover approaches to all forested areas of the Pacific coast, this co-operation is expected to yield valuable educational and practical results.

Farm Pointers

O. A. C. Exp. Station.

BEE HIVES NEED STAND

Bee hives well placed under Oregon conditions do not rest directly on the ground. Timbers 2 by 6 inches (bricks, or special stands may be used for supports), a stand 6 inches high being the best. A sloping board is placed from the ground to the entrance to permit heavily laden bees that drop near the hive to reach the entrance.

SECOND CROP GETS CHANCE.

Succession vegetable crops for fall and winter use such as cabbage, cauliflower, brussels sprouts, broccoli and celery can be set out on ground clear of the early maturing crops. By making suitable plans and carrying them out promptly the garden of farm or country lot can be made to perform double duty. Provision may also be made for successive seedlings of radish and lettuce, designated by the Oregon station as important all-year vegetables.

OREGON FLEECES HEAVY

The average weight of the Oregon fleece is 9 pounds, more than a pound better than the average weight for the country which was reported as 7 to 8 pounds in 1922. The national average was raised from 1.85 pounds in 1840 to its present size, and is still improving with careful selection of stock. It is significant, says the experiment station authorities, to note that many bands in Oregon average 10 pounds. Careful culling of poor fleece learners is being conducted by different growers with a view to raising the average weight still further.

COPPER DUST CONTROLS SMUT

What smut has yielded to control

by copper carbonate dust, according to investigations by the experiment station. The cost, the labor and the risk are less than for treatment with liquid bluestone or formaldehyde. Fewer seeds are damaged by the chemicals and hence one-fourth less seed is ample for a good stand. The plants germinate better under unfavorable conditions of drought and emerge much stronger and more vigorous.

Copper carbonate dust treatment of seed wheat has been found by the Oregon experiment station to be effective in smut control, to aid rather than harm germination, to reduce the amount of grain seeded after liquid treatment 25 per cent, to reduce losses from holding treated grain in bad weather, and to produce good healthy plants under otherwise unfavorable conditions.

It is economy on the part of Oregon farmers who raise stock to pasture the stubble field with hogs or sheep, the experiment station finds. The grain shattered or lodged will be readily gathered up by them and converted into a marketable form. Where considerable grain has lodged, hogs are used. Sheep are a good substitute.

Contagious abortion of cattle must be checked in Oregon or it will bring financial ruin to increasing numbers of cattle owners. All forces interested must band together for the fight, says Dr. E. T. Simms, of the experiment station. Investigators must push forward finding new truths and making new discoveries, and working out new methods of applying them. Dairymen and beef producers and all dairy and beef associations are urged to support the experiment station in this work.

Losses in barn yard manure may be cut down by protecting it from leaching in the rainy season, keeping it moist in the dry season, and mixing with land plaster or superphosphate to prevent the escape of nitrogen in the form of ammonia, advises the O.A.C. experiment station.

Comparatively few Oregon growers produce certified potato seed. Three trips must be made by the O.A.C. Extension service to the farms of those who attempt it. The growers usually receive a premium for their seed, and a small fee is asked to help pay the expenses.

Boy Tease Dies When Stabbed by Angry Girl

Omaha, Neb.—Jabbing at neighborhood girls with a pin-tipped stick cost the life of Robert Ebenberger, fourteen, when Allison Ralph, thirteen, plunged a hairpin into his chest, puncturing a blood vessel. The youth died in ten minutes.

"Every night the boys in the neighborhood have been sticking the girls with pins on sticks," Allison told police. "I got a hairpin and told the other girls that if they came near me any more I was going to stick them good."

Robert chased her and lunged toward her with a stick, she said, and fell back when she defended herself with the hairpin. He ran a few steps, fainted and died without regaining consciousness.

Bulldog Summons Aid for Stricken Master

Waukegan, Ill.—Faithfulness and trained instinct of Spot, a famous bulldog, probably saved the life of John McElroy, sixty-five years old, well-known Waukegan resident, recently. The dog made a trip to the police station from the outskirts of the city when his master suffered a paralytic stroke and fell to the sidewalk.

When his master fell the dog started barking, but to no avail, and then raced to the police station. By howling loudly and starting off in the direction where the man was lying, the animal succeeded in getting an officer to go to McElroy's aid.

To Erect Temple

A temple costing \$3,000,000 is to be erected in Ste. Anne de Beaupre to replace the destroyed one, according to an announcement of the Redemptorist Fathers; as well as a monastery costing \$500,000, to provide accommodation for the residing fathers. At the same time it was also stated that in view of the importance of the work a contest carrying a prize of \$15,000 may be opened to architects.

The Durable Oak

Oak timbers have withstood all kinds of weather for five centuries, according to a recent report from London.

Man's Arm Torn by Boar Held to Protect Crowd

Alexandria, Va.—Fearlessly thrusting his right arm into the path of a wild boar as he attempted to escape into the packed tent, Doc Brennan, veteran lecturer on the freaks of a show on North Washington street, suffered severe lacerations and for a while was at the mercy of the ferocious boar's three-inch tusks. Brennan was rushed to the Alexandria hospital.

More than a hundred women and children were in the tent when the animal went on a rampage as the lecturer opened the cage door to handle the "pet." With an ugly snarl the animal rushed for the door. Brennan, realizing the danger, thrust his arm in the path of the animal and, as calmly as possible, summoned aid. The boar was subdued finally by Charley Doan, its tamer, but not before Brennan's arm had been badly wounded.

At the hospital it was said that several of the wounds in the man's arm were of a dangerous nature. The largest laceration extended the entire length of the forearm and was more than an inch deep in places.

Friday morning will see some visitors in the local flax fields.

About thirty business men from Portland will be in Salem to visit the flax plant at the P. E. Thomason field and then will drive to Turner to the P. E. Thomason field where a pulling demonstration will be given. P. E. Thomason has some good flax this year, and this demonstration will prove what irrigation will do for flax.

Former Turner Resident Passes Away Suddenly in Portland

Mrs. Effie Edgar Wade passed away suddenly at her home in Portland. Mrs. Wade was a former resident of Turner and in company with her mother of Salem visited at home of her relatives, Clinton and James Tracey, Saturday, Sunday and Monday, returning to her home in Portland July 22. She was taken suddenly ill and passed away at 4 a. m. July 23, 1924.

Surprise Party at Battle Creek

The latest social event in the Battle Creek neighborhood was a surprise party on Bert Peoples. Those present were Arthur Wiak and family, Ed. Chastain and family, A. E. Richter and family, J. A. Morgan and family, Ted Naderman and Hans Naderman. Games and singing were the order of the evening followed by refreshments. Last but not least was the solo, "Sweet By and By" rendered by Hans Naderman. It was a time long to be remembered.

THE TURNER TRIBUNE

The move started for the marking of the road from Turner to the Pacific highway is a move that has been needed for some time. There are many motorists who come out from Salem by way of the State Institutions and go back across the country to the highway and then to Salem, are at a loss to find the correct route. The move has been started by the Salem Chamber of Commerce, and should be appreciated by the people in this vicinity.

There has been a statement general over the country that Robert M. LaFollet has aligned himself with the Socialist party, but as a matter of fact it is the other way. At the beginning of the movement to inaugurate the third party, Mr. LaFollet was asked to accept the nomination on the Workers' ticket which he flatly denied saying he could not run on their platform. Facing these facts the Socialist party decided to join the LaFollet ranks. With LaFollet on the Progressive ticket, Coudridge for the O. P. and Davis for the Democrats, it makes it hard to predict the outcome of the campaign. It will be a case of watch-fall waiting.

NEW five-deck liner Bienville as it will appear when completed. At left, Miss Dorothy R. Maxson, sponsor, and her father, Captain C. P. Maxson, who will command the big steamer

TACOMA, July 14.—Establishing what is declared to be a new speed record for construction of such a large and modern craft, the steamer Bienville, new queen for the Southern Pacific's Atlantic fleet, was launched today at the Todd Drydock and Construction company's plant. The keel was laid 4 1/2 months ago.

The steamer, which will carry both passengers and cargo on the important New York-New Orleans run, connecting with the Sunset Limited to and from the Pacific coast, is 145 feet in length. It is to be the finest and best equipped of any vessel launched since the war.

Named for Jean de Bienville, noted French general who in 1718 founded the city of New Orleans, the new steamer was sponsored by Miss Dorothy R. Maxson of West Myrtle, Coan, attractive daughter of Captain C. P.

Maxson, senior captain of the Southern Pacific's ocean service, who will command the Bienville.

Captain and Mrs. Maxson and their daughter headed a delegation of railroad and steamship officials and Pacific coast business men who visited Tacoma today for the launching, as the guests of J. A. Eves, president of the Todd company. The wide-spread benefits to the north Pacific coast from such construction work were emphasized at the ceremonies.

It is expected the Bienville will be in readiness in November for her first trip to the Atlantic coast preparatory to delivery to the Southern Pacific at New York. A short time later she will take her position as flag ship of the fleet forming part of the commercially important route between the Pacific and Atlantic oceans.

The steamer cost in excess of \$2,000,000. She is to be a five-deck ship with turbine engines capable of developing 7,100 horsepower, driving the steamer at a sustained speed of 16 knots an hour.

Particular attention has been given to the furnishings of the steamer so that throughout it will compare with the best and most modern hotels. State rooms are large and designed to provide the utmost comfort for guests. The Bienville will accommodate 337 first cabin and 111 steerage passengers. There are a number of Southern Pacific service, providing "100 golden hours at sea" between New York and New Orleans and by rail through the romantic south and the historic west to and from the Pacific coast, is attracting large numbers of passengers. These include many tourists visiting Washington, Oregon and other states.

BIBLE THOUGHT FOR TODAY

SEEK YE THE LORD while he may be found, call ye upon him while he is near.—Isaiah 55:6.

OH THAT MEN would praise the Lord for his goodness, and for his wonderful works to the children of men.—Psalm 107:21.

A MAN THAT HATH FRIENDS must show himself friendly; and there is a friend that sticketh closer than a brother.—Proverbs 18:24.

THOU ART A GOD ready to pardon, gracious and merciful, slow to anger, and of great kindness.—Nehemiah 9:17.

REMOVE for from me vanity and lies; give me neither poverty nor riches; feed me with food convenient for me.—Proverbs 30:8.

OVER MILLION FORDS SOLD FROM JANUARY TO JULY

Sales reports from the 34 American branches of the Ford Motor Company show that over a million Ford cars and trucks were sold at retail during the first six months of 1924. The actual figure is 1,036,978, which exceeds the total retail sales for the same period in 1923 by 133,095 — an average gain of 22,182 sales per month.

A comparison between Ford sales in 1924 and 1923 not only indicates a remarkable increase in the country's buying power but also shows that this growth continues month by month. In every instance the monthly sales in 1924 have shown a substantial increase over the corresponding month in 1923. In June they reached 170,747 which was approximately 10,000 ahead of June sales in the preceding year.

These figures are for retail sales in the United States alone and do not take into consideration the sales made by foreign Ford branches and associated companies, the majority of which assemble cars from American made parts.

Perhaps the most encouraging sign of the times lies in the fact that these sales have been spread very evenly throughout the country and indicate a general prosperity that is not confined to any particular section.

Barr as Help to Memory

With the knowledge of the sticking quality of herra, the Cherokee Indians thought that by feeding them to their offspring the children's memory would be improved.

SUMMONS
In the Circuit Court of the State of Oregon for Marion County, Department No. 2.
E. HORTON, Plaintiff, vs. E. K. SPYKER and JANE DOE SPYKER, his wife, Defendants.
To E. K. Spyker and Jane Doe Spyker, Defendants above named.
IN THE NAME OF THE STATE OF OREGON you, and each of you, are hereby required to appear and answer the Complaint herein filed in the above entitled cause, within six weeks from the time of the first publication of this summons-to-wit, June 12th, 1924, and if you fail to answer said Complaint, for want thereof, plaintiff will take decree and judgment against you for the foreclosure of a mortgage executed by the defendant, E. K. Spyker, upon the following described real property, to-wit: All of Lot Nineteen (19) in Block Two (2) of Burlington Addition to the City of Salem, Marion County, Oregon, according to the duly recorded plat thereof, now of record with the county recorder of Marion County, Oregon, and for the sale of said above described premises in the manner prescribed by law in such cases, and such other relief as in said Complaint prayed for, and shall be deemed proper by the Court.
You are hereby notified that this summons is served upon you by publication thereof in the Turner Tribune, a weekly newspaper published at Turner, Marion County, Oregon, pursuant to the order of the Hon. W. H. Downing, County Judge of Marion County, Oregon, made on the 29th day of May, 1924, and you are further notified that the date of first publication of this summons is June 12th, 1924.

CHRIS J. KOWITZ
303 Salem Bank of Commerce Bldg. Salem, Oregon.
Attorney for Plaintiff.

NOTICE OF HEARING OF FINAL ACCOUNT
Notice is hereby given that the final account of Lloyd T. Rigdon, administrator of the estate of John Albert Erickson, deceased, has been filed in the County Court of Marion County, Oregon, and that on the 12th day of August, 1924, at the hour of 10 o'clock A.M. thereof, has been daily appointed by such court as the time for the hearing of objections to said final account and the settlement thereof. All persons interested in said estate are hereby required to appear in said Court at said time and place and show cause, if any they have, why said final account should not be allowed and approved by said Court.

LLOYD T. RIGDON, Administrator of the estate of John Albert Erickson, deceased.
BRAZIER C. SMALL, Attorney for Administrator.

NOTICE
In the County Court of the State of Oregon, for the County of Marion. In the matter of the application for Change of Name of A. T. Gjertsen.

TO ALL WHOM IT MAY CONCERN
NOTICE is hereby given that the County Court of Marion County, Oregon, by an order entered on the 8 day of July, 1924, has ordered and decreed the name of the above named applicant and party A. T. Gjertsen to be changed from the said name of A. T. Gjertsen to the name of A. T. Garson, and said order and decree provided that public notice of said order shall be given for a period of two weeks.

A. T. GARSON, Formerly A. T. Gjertsen.
GUY O. SMITH, Attorney for Applicant.

EXECUTRICE'S NOTICE
Notice is hereby given that the undersigned, by an order of the County Court of Marion County, State of Oregon, duly made and entered on the 29th day of May, 1924, were appointed Executrices of the estate of Hattie A. Davis, deceased, and said they have duly qualified as such.

All persons having claims against said estate are hereby notified to present same, duly verified, as required by law, at the office of Chris J. Kowitz, 303 Salem Bank of Commerce Building, in Salem, Marion County, Oregon, within six months from the date of this notice, to-wit, June 26th, 1924.

AUDREY HOBSON,
MERLE LEWIS
Executrices of the estate of Hattie A. Davis, Deceased.

NOTICE OF FINAL ACCOUNT
Notice is hereby given, that the undersigned, Levi James Post, the duly appointed, qualified and acting administrator of the estate of Hattie May Post, deceased, has filed in the county court of the state of Oregon, for Marion County, his final account in the said estate, and that the said Court has fixed on Saturday, the 26th day of July, 1924, at the hour of 10:00 o'clock A.M., of said day at the County Court House in the Marion County Court House at Salem, Oregon, as the time and place for hearing of objections to the said account and the settlement of the said estate, at which time and place all persons having such objections may appear and show cause, if any there be, why said account should not in all things be allowed and approved, said estate settled and closed and the administrator discharged.

LEVI JAMES POST, Administrator of the estate of Hattie May Post, Deceased.
ELMO S. WHITE, Attorney for the estate of Hattie May Post, Deceased.
402 Masonic Temple, Salem, Oregon.

Water for Oranges
Irrigation is an important feature of the orange growers' industry. It is particularly necessary in Arizona and California, while the Florida groves can generally depend upon the rainfall.—Nature Magazine.

NOTICE OF HEARING OF FINAL ACCOUNT
In the County Court of the State of Oregon for the County of Marion. In the matter of the Estate of Anna B. Whale, Deceased.

Notice is hereby given that the final account of James H. Black, administrator, De-Bonis-Non of the Estate of Anna B. Whale, deceased, has been filed in the County Court of Marion County, Oregon, and that the 11th day of August, 1924, at the hour of 10 o'clock A.M., has been appointed by said Court for hearing objections to said final account, at which time any persons interested in said estate may appear and file objections thereto in writing and contest same.

JAMES H. BLACK, Administrator-De-Bonis-Non.

Kill Huge Snake That Milked Cows
Reading, Pa.—The great cow mystery has been solved. For three years the cows in the Charles F. Holzemann herd had been "milked" out on their morning milks. Neither the farm hands nor the dairy experts could discover why.

The truth came out when a tenant of Mr. Holzemann killed a huge blacksnake, the largest seen in this county. Proof was complete when a local zoologist said the reptile was the kind that robbed cows of their morning's milk.

Undoubtedly, said the zoologist, it was the snake that had been milking the Holzemann herd for the last three years.

JOB IS BUNGLED BY YOUNG THUGS
Fail to Obtain Loot After Battering Safe.

Brooklyn—Aspirants to the profession of safe-cracking—soft-boiled yeggs—practiced a bit at the Memorial social center, conducted by the Lafayette Protestant church. They took the hinges off the safe, they knocked the dial off, but still they couldn't open the door. There was nothing of value in the safe, it was said. The police think the attempt was the work of youthful burglars. There may have been a girl in the party, it is thought.

Inasmuch as there was stolen a man-cure set and an apron belonging to Miss Florence Hopkins, teacher in the kindergarten annex of school No. 32, which holds its sessions in the center. Entry to the center was gained through a window leading into the gymnasium. The intruders then forced doors leading to the halls and went to the office of the janitor, Frank McConnell. His tools and materials were all under lock and no effort was made to take them.

Miss Irene Graham, manager of the social center, said that it has been entered eight or ten times in a year. At one time the intruders became so frequent that a detective was detailed to stay in the building nights.

It is thought the burglars made the effort to get into the safe in the expectancy that there might be a good-sized sum in it as a campaign to raise money for the support of the center is now in progress. Miss Graham said that she had been taking the money away from the office daily since the campaign has been on.
