Mea the mos was a wingless bird found in New Ze land, somewhat like an ostrich to appearance. It varied from the size of a turkey to hirds 12 feet in height. They were edible and their retermination pore than 500 years ago is probably due to that fact. H-ve Own Mica Mines

Mica, the transparent, hent-resisting mineral, familiar to many through its use for windows to heating stoves, has now become so essential in elec-trical ladustry that the larger elec-trical supply manufacturing companies can and operate their own mines.
