RUPTURE
 EXPERT COMING TO SALEM
 Will Give Free Demonstration On Friday and Saturday, August 15 and 16 AT MARION HOTEL From 10 a.m. to 4 p.m. TWO DAYS ONLY

On above date the noted rupture appliance expert, C. F. Redlich, will give a free demonstration.

"You will at once realize the difference between his highly efficient, absolutely sanitary appliances and the inefficient uncomfortable, smelly and thoroughly unsanitary elastic web trusses with their bulky, plainly visible pads and their abominable chafing legstraps or the various mail order steel or wire trusses which never fit right. All of these unscientific devices make your rupture steadily worse instead of better, as you well know. Mr. Redlich's appliances, scientifically fitted by an expert in person, will give security and comfort for years to come, not only to those with recent and small ruptures, but also to old, neglected cases. They are by far the cheapest in the long run.

Many ruptures are now healed by these improved mechanical methods which formerly necessitated operations; but do not delay.

Children should never carry a rupture into manhood or womanhood, as they can be easily reduced to a normal condition by a proper mechanical method. These clean and sanitary devices will help be most appreciated. It will not cost you anything to be shown and a visit may mean a great deal to you and those dependent on you."

Patrol leader Hollis Bones leaves Friday morning for Scout Camp at Camp Cascason, Cascadia, Ore.

TAX-EXEMPTION

How nice it sounds! But supposing some one proposed double taxation for the majority of people in order that a minority minority might go tax free. Such a proposal would cause unqualified condemnation yet our law-makers by refusing to change our old laws so as to prohibit the further issuance of tax-exempt bonds are sanctioning the double taxation method for the masses in order that tax-exemption may be enjoyed by the few.

M. E. Church

The attendance at all services has been good this summer especially among the young people.

A cabinet meeting of the Epworth League was held at the home of F. P. Rowley where a class for systematic Bible study was formed. The first session will be to-night (Thursday) at the church.

Several of the young folks are planning to go to institute at Falls City for the week end.

Regular services next Sunday, Sunday School 10 a. m., preaching 11 a. m. and 8 p. m., Epworth League 7 p. m.

CHURCH OF CHRIST

The summer attendance is holding up fine, fifty-four last Sunday.

The young people who attended the C. E. picnic had a wonderful time, and brought back a good report.

The C. E. party will be given at the Delzell ranch, next Saturday night. It is also a farewell party as Miss Thelma Delzell has a school in Lincoln Co., and Miss Avalyn will go to O. A. C. next month.

High Power Line From Salem Soon a Reality

We are in receipt of information from W. M. Hamilton, president of the Turner Light and Power Co., to the effect that the high power line being extended from the Boys Training School will be completed and in operation about the middle of August, possibly sooner, and as soon as completed, service will be supplied from this source, and the present plant at Turner will be held for a reserve source of supply, for a while, at least.

Here-to-fore, as is known, the local plant has been unable to supply all demand made upon it. One of the present reasons for getting this connection with the Portland Co. has been to provide an adequate power supply for Turner, as this is a very important item in the development of any city, town, or community.

As the Company will purchase the power from the Portland Electric Power Co. on a meter basis paying for the actual kilowatt hours delivered to the Turner Co. it will be necessary to install meters on all consumers so that they may be able to sell the current on the same basis as they are paying for it. These meters are to be installed during the coming month and they will begin selling electricity on the meter basis on the first of September.

This connection with the Portland Electric Power Company's system will enable the Turner Electric Light and Power Co. to give much better service to their customers and will provide them with adequate facilities for supplying power for any additional business that may be offered them, or that they may be able to secure in and about Turner.

The new supply line will carry 11000 volts and will cost approximately \$2,000 when completed.

Auto Accident

A slight traffic accident took place in Turner, Wednesday morning, when a Star car driven by a young man by name of Bok, of Salem, ran into a car owned and operated by Peter Peterson, a farmer living near Turner. Mr. Peterson was turning in on the left to stop at the Earl gasoline pumps when the other car attempted to pass. The cars locked wheels and forced the Salem car into the sidewalk and into a telephone pole. The Peterson car received a bent fender and cut tire.

Flax Puller Demonstrated By P. E. Thomason

Last Friday was a day of boosting for the Flax Industry on the P. E. Thomason farm in the Turner district. A party of Salem and Portland business men after a visit to the flax plant at the Penitentiary motored to the Thomason ranch where the owner was host at a "feast of good things" at noon followed by a demonstration of the new flax pullers. These pullers were first tried out in the Turner district, last year by Col. Barram, of Canada, in an official demonstration on the Hoke farm near Stayton, where a record was made as follows: 43 acres pulled at a cost of \$2.64 per acre, covering all cost except the time of the expert, which being added would not have exceeded \$6 an acre.

The seven machines now being operated are doing as well and some even better.

The machine now being used is the Vessot machine, invented and manufactured in Canada, and is the invention of a French-Canadian minister, and is a long step from the 6000 years of hand pulling. The machine pulls from five to eight acres a day, and with it, it is possible to even save the short flax at a profit.

The machine on the Thomason farm is being operated at a cost of \$3.65 per acre. Exclusive of team and

Man Breaks Into Jail and Gets 5-Year Term

Coalgate, Okla.—Five years in the state penitentiary for breaking into the jail to renew acquaintances, but found the door locked. Securing a ladder, Wilson pried several bars off a cell window and invited his friends to escape. They declined and told the jailer. Wilson pleaded guilty.

Chamois, Fox and Eagle Fight

Davos, Switzerland.—A Swiss hunter reports a three-cornered battle between a chamois, a fox and an eagle. The fox attacked the chamois and had almost killed it when an eagle attacked the fox and chased it away. Before the eagle had time to eat the chamois, which had died meantime, the hunter rushed from his hiding place and scared the bird away.

The eagle remained in a neighboring tree, however, where he could watch the chamois. By placing a trap near the dead chamois the hunter captured the eagle.

Two men, who put out in a boat, were able to reach her before she sank. She was unconscious when taken from the water, but had fully recovered by night.

TALKS BURGLARS OUT OF ROBBERY

Criminal Lawyer Saves Jewelry Worth \$4,000.

New York.—Frank W. Stanton, lawyer, of No. 1122 St. Nicholas avenue, adjoining Washington Heights court, told police of West One Hundred and Fifty-second street station he had talked two burglars out of robbing him of \$4,000 in jewelry.

He was returning from a boxing match to his home, No. 303 West One Hundred and Seventy-fifth street, he said, when he saw lights in his apartment. Suspecting burglars, he cried: "Don't shoot, I've got my hands up!" as he entered. He found the burglars had taken a pearl necklace, diamond pin and diamond studded wrist watch.

"Go ahead, I won't resist," he said to the intruders. "The joke's on me. But I've been defending guys like you 10 years."

"What do you mean?" one of the burglars asked him.

"Well, I'm Frank Stanton, criminal lawyer," he replied.

"Prove it," said one of the thieves.

Then, Stanton told police, he showed the men cards and letters, whereupon one of the burglars exclaimed: "Well, I'll be blowed! Here, take your stuff back. We wouldn't rob you."

"If I had talked to them ten minutes longer I believe I would have had their bank rolls," the lawyer said.

He added he did not recognize the burglars, although he thought it possible they might have been among clients he has defended.
