AUTO PARTS HOUSE GROWTH RAPID

Parts Business Make Phenominal Growth in 4-2 Years

The auto parts store of W. E. Burns of Salem, carries one of the largest and most up-to-date supplies of parts in the city. Four and one half years ago Mr. Burns started in business with the Tinapkin Bearing service, in a small space with another firm. Today the store occupies about 4000 sq. ft. of floor space including the office quarters. The store room has been enlarged three times during the past year and balcony has been added for the office and ever increasing stock of auto supplies. They carry a full line of standard parts for all cars, trucks and tractors, specializing in Continental motor parts.

Comparison of the present business with the start 4 1/2 years ago speaks for itself regarding the work of the proprietors in building the business from practically nothing to its present proportions. It is the influence of business men of this type that makes for a steady sound business prosperity.

Although the bay was quite rough they managed to make the trip without any bad effects.
