Livestock Prices Improve

Sales recently made show that the livestock industry is coming back, particularly in the cattle industry, both in the beef and dairy breeds.

Livestock raising, through careful breeding and modern production methods, can profitably be engaged in by every farmer and should be especially attractive to those who have heretofore depended upon one crop for their income. We, here at the Turner State Bank, as naturally desirous of seeing this great industry become an ever-growing part of farming operations in this community. Cooperation is gladly given to those who merit it.

"On to Portland," is the slogan of many farmers who desire to see and study the greatest exhibits of purebred beef and dairy cattle, horses, sheep, goats, swine and poultry ever assembled under one roof in America. The Pacific International Livestock Exposition will be held there October 31st to November 7th. Do not miss it!
