**TO THE VOTERS OF THE CITY OF TURNER**  
We, your council, have called an election for the 12th of January, 1926, for the purpose of permitting the electors to approve or reject certain amendments to the city charter. The reason for the amendments is that certain of the sections in the city charter are indefinite and if the city forced suit the outcome would be in doubt. This is corrected. Many sections are repealed which are out of date.

The council also ask that the charter tax rate of 5 mills be raised to 7 1/2 mills. When the former tax rate was made 50c went further than \$1.00 does today. The yearly light bill and hydrant rent use up all the general fund and there is no money for other purposes. A sinking fund also has to be provided for to pay off the water bonds.

GIVE SUMMER FARES

Announcement is made by John H. Scott, assistant passenger traffic manager, Southern Pacific Company, Portland, that low round-trip summer excursion fares to destinations throughout the United States will be in effect for the coming season.

These summer excursion tickets will be placed on sale effective May 22nd and will carry final return limit of October 31, 1926.

In discussing the low fares, Mr. Scott stated the object is to stimulate travel, as they will enable many to visit their old home who would be unable to do so if fares of this nature were not authorized.

Also they appeal to the pleasure seeker, as there is hardly a point on the continent that cannot be conveniently reached by a side trip at very little additional expense.

Asked if there were any restrictions on these tickets, Mr. Scott stated they entitled the holder to all privileges extended to strictly first class tickets including stop-overs and the use of limited trains.
