

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean that you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and clogged. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water.

Profanity Not Known Among Sioux Indians

Cursing is impossible in the Sioux language. According to Dr. E. Ashley, veteran Episcopal missionary among the Sioux Indians, blasphemous and profane speech is unknown in their tongue. Their impressions, he says, are limited to a flick of the middle finger. Pointing out that the tribe name Dektotah means "friendly people," he thinks the life of the tribe flowed so smoothly, and they offered so little resistance to its course, that no need for profanity existed. "The reputed stoicism of the red man and his silence in stalking game or making war," he declares, "do not explain the absence of profanity from the tongue. There is no word or expression in the Sioux tongue even to convey the damning of an enemy. A flick of the middle finger, resembling the snapping of an arrow and denoting scorn, is the ultimate in condemnatory gestures."—Pathfinder Magazine.

BLACK SATIN IN POPULAR FAVOR; SHOES, HAT AND BAG TO MATCH

AS TO the question of modish fabric for your best dress-up afternoon frock, fashion promptly answers in two simple words—black satin. Where's the thrill of newness in black satin, say you? It is all in the styling, in the cunning artful styling. To which declaration the latest satin models from Paris bear eloquent testimony.

The fact that the ensemble theme is prevalent in the mind of the stylist this season, accounts for the being of the handsomely designed group in this picture. This adorable set is of ebony kidskin—the new name Paris has given to black kid. With the revival of the vogue for fabrics in black, it is natural to foresee the incoming of the mode for black shoes. Ebony kid in its deep dull luster is considered far smarter than the leather of high gloss. Here we have a naive hat of ebony kid with a narrow turn-back of gray snakeskin. The flat envelope purse is displayed in two views. The one in the inset shows the handsome front flap which is embellished with a conventional perforated design, the same

collar. Cut-steel metalheads artistically pattern collar, cuffs and belt. An intriguing touch is given this model through colorful flowers embroidered in wool, cleverly placed so as to give the appearance of a bouquet tucked in the belt. Are you wondering as to the color of the chapeau which Miss Marlowe is wearing with this strikingly handsome frock? It is a slyvertone gray velvet.

In designing the black satin frock representative of choicest mode, not only do scallops play an important part but there is also an abundance of shirring stressed in ways most unique. Yokes are also frequent in smart fabric manipulation and these are accented in case of the crepe-back satin frock by using the luster side in reverse with the dull finish.

Applied trimmings accent massive fringes, sometimes skirting the satin repeated on the smart slippers. Both purse and shoes are stamped with snakeskin, identical to that used for the facing of the hat.

The use of new leathers in hats is very interesting and the outlook is for its widespread exploitation. A favored medium is leather spotted to imitate leopard, the same working up smartly effective in matching kid accessories.

Sometimes the set of hat, bag and shoes is augmented with a belt. The vogue for navy blue kidskin footwear is pleasingly accompanied with a trend toward hat and bag to match.

Carrying out the ensemble idea also are the chapeaux of flat, spotted calf-skin or unshaved lamb, with narrow belts of the same smooth peit.

There is much interest just now in curious reptile leathers. Shaded reptile effects are the latest for flat up-

gown with all the grace of a befringed Hawaiian maiden's dancing frock. Metal embroidery is also generously bestowed on the black satin frock, also rhinestone buttons and clasps whose sparkling beauty lend a note of enchantment to the modern all-black frock. This vogue for rhinestone embellishment is becoming more and more pronounced, not only for evening but for daytime costume as well.

In the exquisite matching kidskin sets of hat, shoes and handbag, which is the latest sensation in style, opportunity knocketh at the door of the fashionable woman to spend and spend. Whatever these elegant combinations may cost, they are worth it, for they glorify even the simplest costume to the point of sartorial perfection.

der-arm bags, and the coloring is repeated in the shoes.

Inaid leather work has become very popular for novelty footwear, and it lends itself delightfully to the new leather accessory sets, such as pictured here. With solid colored leathers for the foundation, it is an inspiration to the designer to be able to work in details of the fanciful inset leather, and to thus interrelate these accessories until the costume appears in perfect ensemble.

Thus, milady finds she is required to be very discriminating in selection of headwear and footwear with all the other trifles incidental to attire, for either these must be a perfect match or at least maintain a pleasing harmony.

Hats and Frocks of Organdie

To be really smart one wears with a pastel-tinted organdie a hat of the same material and same shade. Both hat and dress are embroidered in silver.

Chiffon Tailleurs

The strictly tailored costume, either in one piece or in jumper style, is one of the contradictions of the mode that Paris and New York sponsor with enthusiasm.

Black and Green

Black with touches of pale green is featured in some of the smartest new frocks. One particularly attractive model is of black lace and chiffon with a huge green flower made of feathers posed at the waistline on the left side.

Lame for Frocks

Silver lame is used to make most gorgeous evening frocks, and is embellished with brilliants or pearls.

Keep Fit!

Good Health Requires Good Elimination.

TO be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and achy. A nagging backache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passage of secretion.

If you have reason to suspect improper kidney functioning, try Doan's Pills—a tested stimulant diuretic. Users praise them throughout the United States. Ask your neighbor!
