

### Up For Election

Prosperity is up for election, running to overthrow depression.

It's for the people to decide which will be chosen. Every man and every woman is privileged to ballot—every day.

Depression has no rightful place with a hundred and twenty million people, exchanging goods and services—capable—accustomed and willing to work—more highly skilled than other peoples—leaders in efficiency and progressiveness—backed by the vast natural resources of the United States. When we make it possible for the man who works to have a job we make it possible for him to buy food for his family and so help all business, including that of the farmer.

The rest of the world is of small importance compared with that free market of 120,000,000 people—homogeneous—of like tastes, habits and aspirations—living under the same laws—free of trade barriers. Foreign trade may be troubled by tariffs and revolutions, but at their peak our exports represented only five and a half billions of dollars of gross business in a year out of a total American income of ninety billions.

Stagnation of circulation is what's the matter with agriculture and with business. Everyone can help to get the circulation moving again.

Government can't make prosperity—alone. Bankers and other business leaders can't make prosperity—alone. It's the people, united in opinion and purpose and courage, who determine Prosperity. They can elect it—none other.

Ballots that will be validly counted for prosperity are of many kinds. Some of them every man and woman can cast. For example:

Help a deserving man or a woman to get a little paying work—or, better a regular job.

Spend wisely and not too timidly, and anticipate scheduled expenditures so far as is practicable.

Turn the deaf ear to false, mischievous rumors; and don't repeat them, if you do hear them.

Be willing to pay a fair price. Don't take advantage of the other man's necessity. Recognize that he has as good claim to a fair profit as you.

When a vampire that fattens on the miseries of others shows up, help to make him unpopular.

Discourage calamity howlers.

Keep business moving evenly, and remember that, to the average man, his job is his particular business. When possible, reassure him against his fear of losing it.

Save, but save wisely, not in fright. Invest for the profit that sound enterprise pays and for the added profit that will come after the hysteria of pessimism has passed.
