Several different families have been on the sick list lately but last reports all are better.

Two more rural school at North Santiam and West Stayton, have reported overcrowded conditions to the county school superintendent, Mrs. Mary L. Fulkerson. John Miller of the North Santiam board and B. H. Chamberlain of the West Stayton board were in town Saturday to confer with Mrs. Fulkerson regarding the matter.

It is probable both problems will be solved by transportation of some of the pupils to another district. North Santiam has another room in the school building, which is not now used, and this district may elect to hire another teacher and thus take care of the situation. There are enough pupils attending now to warrant this.

Edna Fery is teacher at North Santiam and Mr. and Mrs. L. B. McClelland have the West Stayton school. Mrs. Fulkerson says good work is being done in each school despite the crowded conditions.

Just why the remote schools should be reporting more crowded conditions than usual this fall remains unexplained. However, one school patron from one of the more out of the way rural districts said he believed it was because people, being without employment or money or because of business conditions, are moving to the country where they can live more cheaply.—Statesman.

**AUMSVILLE**
