### CANNERY MEETING WELL ATTENDED--FINANCE AND ORGANIZATION COMMITTEES APPOINTED

The high school auditorium was well filled last Monday evening in response to a call for a mass meeting to talk over the proposed cooperative cannery which is to be built in Turner.

The meeting was called to order by R. Lee Thiessen and the first speaker was Mr. Glatt of the Woodburn Berry Growers Association. He gave a very interesting talk, telling how his organization started business and along what lines they pursued to make a success of the adventure.

George Keech, one of the organizers and managers of the cannery at Stayton, told us of the growth of the cannery and how it was managed to bring it up to the present standard, which is classed as one of the best of its size in the valley.

The Cloverdale district was taken care of by L. E. Hennis, who said that early action should be taken so that the cannery could be built and ready to take care of this year's crop. Other speakers were C. A. Bear, E. T. Pierce, T. Y. McClellan, Fred Comstock and Mayor Harrison.

A recess was taken for ten minutes and several more growers were signed up during that time.

After the recess it was moved that a finance committee of five be appointed by the chair to look after the sale of preferred stock, and L. C. Ball as chairman, E. T. Pierce, E. J. Harrison, F. C. Call and R. E. Tyler were appointed as such committee.

An organization committee was also appointed with L. E. Hennies, chairman; Ira Stone, A. E. Edwards, B. C. McKinnon and J. H. Tegen.

These committees will report at an early meeting to be announced later.

Prof. J. H. Tull, of Oregon State College, was to have been present and give a talk, but owing to the holiday and other business he was unable to come.

Mr. and Mrs. J. W. Mayo of Stayton were Sunday evening callers at the home of Mr. and Mrs. Walter W. Miller.

### THE LEAGUE TEST

By ratifying the Kellogg-Briand peace pact nearly all nations have formally condemned "recourse to war," renounced "it as an instrument of national policy" and promised never to attempt the settlement of international dispute "except by pacific means." If the treaty means anything, why larger armies and navies?

Of course, every one realizes that no one nation can disarm while others retain their weapons—that would be dangerous and foolish—hence, disarmament must come as a common policy. However, the various conferences for reduction of armament have not had any wonderful progress towards the desired goals.

The League of Nations has for its two prime purposes the increase of "international cooperation" and the creation of general "peace and security." Through the initiation of the League, some progress has been made, mainly affecting navies. The big armies have not been curtailed in the slightest. Soon, the League must

### TURNER BASKETEERS WIN LAST GAME OF SERIES RUNNER-UPS FOR CHAMPIONSHIP

In the last game of the Cascade league series, the Turner boys proved victors.

The game in the start looked like an easy victory for the locals, but as the game progressed the Mill City boys strengthened and raised the score to 29-21 favor of Mill City.

E. Gath went into the game in the 31 period and looped in three nice shots, aided by the Pearson brothers, with one apiece and a couple of foul shots making the score 33-31 favor of Turner.

C. Enley was taken out of the game with 3 personal fouls.

Turner and Stayton being the two highest teams in the league will play for the championship in a three game series.

have a show-down on this issue.

Foreign Minister Custius of Germany declares that the world disarmament conference in 1932 will be the "touchstone of the efficacy of the League of Nations." This official expressed the belief that a failure to reach this problem and solve it would threaten the League's existence. If nations, pledged to peace, insist on big armies and navies, what do they want them for, and why will they refuse to cooperate in a general plan for disarmament?
