## Wallace Riches Heads Community Club

The attendance at the Community Club meeting Monday evening, was very small compared with other meetings throughout the winter and this spring.

Miss Anderson of the Cloverdale district, led the singing when America and Just a Song at Twilight was sung by the audience.

W. A. Bear, president and Miss Mable Tucker, secretary, presided at the business meeting when all business was brought up to date and then the club spent some little time in selecting new officers for the coming year. H. S. Bond, chairman of the nominating committee, placed the name of Walter Miller and Wallace Riches, for president. Nominations were made for Cordell Ball, Ivan Hadley, Ulwin Denyer, E. S. Prather, Mrs. Stanley Riches, Mrs. Chas. S. Clark, H. S. Bond, but all declined the nomination with the exception of Mr. Riches. When the votes were counted Mr. Riches was first with 42 votes, Walter Miller 2nd with 34. E. S. Prather received 14. H. S. Bond, Ivan Hadley,

Cordell Ball and Mrs. Clark each two. Mr. Hadley made the motion that Mr. Riches become president and Mr. Miller vice president and it carried.

Mr. Bond then placed the name of Miss Mabel Tucker for Secy. Treas, and she was unanimously elected. A few words of acceptance was voiced by each of the new officers and a rising vote of thanks was given Mrs. Riches, Mr. Hickok, C. A. Bear and H. S. Bond for their good work in the club.

## Prevention And Cure

One resolution passed by the Knights of Columbus at their recent convention in Salem deserves notice and commendation. It related to welfare of juveniles and directed the subordinate councils to appoint

"a committee whose duty it will be to keep in touch with the juvenile courts of their vicinity and take an active interest in all boys, especially Catholic boys, who may come before these courts and to secure parole of worthy delinquents, particularly first offenders, who may not have committed serious offenses and who may be the victims of circumstances."

Our wastage is a terrible indictment for our modern civilization. The constant stream of youth haled into court and fed thence into jails, corrective homes and penitentiaries reflects upon the failure of our churches, homes and schools in carrying youth over the critical years of adolescence into the more settled years of maturity. These boys and girls are not all bad, they are headed wrong, but under right guidance they may be saved. The Knights of Columbus point the way toward salvage at a time when the wreckage is only partial.

Society may not just shrug its shoulders and say "bad boy" when it sees a lad summoned for some offense. It should get busy and seek to recover that boy for society. The right kind of direction and control, the right kind of discipline will in the majority of cases effect this salvage. Otherwise he may not be rescued but may go down hill to join the great company of wastrels of no value to themselves and a heavy cost to society.

The advice of the K. C. should apply to other religious groups, and to other lodges and service organizations to the end that this human wastage may be stopped. In the field of juvenile delinquency as perhaps in no other does the old saying apply that an ounce of prevention is worth a pound of cure.—Portland News-Telegram.

## Date Changed

Owing to not being able to get a machine that will carry the films, the pictures of the Rota Milking machine that was to be shown at the Grange meeting here, Saturday night, the picture will not be shown. The committee in charge hopes to bring the picture here soon.

## The Biggest Hogs In The Trough

While talking to a group of men on the street the other day, the subject came up concerning the hard times or depression in this country. We are supposed to be the richest country with more money per capita than any other nation. The question was asked, if that is true what has become of it? Where did it go? I made the remark that the hogs have got it, and an explanation was requested. I replied thus: If I were to enter a hog calling contest today, I would start out something like this, and I would yell at the top of my voice to make them hear in Wall Street: Hoover! Hoover! Hoover! Hawley Hawley Smoot! Smoot! Smoot!

[Get out of that trough you big hog and let some of those other hogs have some] Grundy Grundy Grundy

I mean there are two kinds of hogs in this country. One kind is supposed to be the mortgage lifter and the other kind makes it absolutely necessary to put on a larger mortgage or give them your farm.

When they passed the Smoot-Hawley-Grundy Tariff bill they got so hoggish among themselves that they killed the goose that laid the golden eggs. I mean the independent farmer [not the cooperation farmer for they only represent the

spoils of aftermath of the foreclosures and are in competition with the independent farmer, with whom he cannot compete] The same rule applies to the independent merchants. We were given the farm board as a soothing syrup to keep us from fighting for the equalization fee. When farming is done at a loss year after year the nation is thrown out of work. And why is this?

The continued submersion of the one basic fundamental industry, in the world (Agriculture) finally leads to a slump in the buying power of the largest group of buyers (Farmers.) Every industry is The farmer is the first to feel the effect and the last to recover.

And he is paying two enormous bills for education and relief one lesson is to produce two blades of grass where one grew before and thus produce cheaper. The other is to cut down production and stimulate a demand. Getting two kinds of advice from the same source is the height of the ridiculous.

The real thing to accomplish is for farmers to stop buying in a protected market paying the price asked and selling in an open market taking what they are offered.

Disgruntled Farmer.

## METHODIST CHURCH

Rev. Burgoyne gave us four views of Peter last Sunday morning—as he appeared to strangers, to a friend, to himself and to Christ. He showed how each of us have these same four views but the most important is the last one for Christ knows more about us than we know about ourselves, but "if your heart condemn us, God is greater than our heart, and knoweth all things." What is the Gospel according to you?

In the evening the Pastor brought us a message on "The Wrong Measure." Text was taken from Corinthians where Paul speaks of our proneness to measure ourselves by ourselves instead of by the only true means The Christ—God does not want average christians. He wants us to be extraordinary. Have this mind in you, even the mind of Christ.

Two more Sundays only, until Conference.

A goodly number went to Mrs. Pearcey's to the W. C. T. U. Wednesday. They report a most splendid time. Good flower mission program and almost a banquet.

## State Grange In Medford

Charles C. Hulet was elected Master of the Oregon State Grange one year ago at the Redmond Session. The Grange under his leadership has been very active during the past year.

Two measures were initiated and placed on the ballot last fall by the Grange: The Grange Power bill held the center of the stage through the campaign and won by a large majority. The last session of the legislature passed the Grange Power legislation with a large majority.

Mr. Hulet received unusual recognition in the National Grange for a new member of that body. He was placed on two important session committees and was made chairman of a standing committee on agriculture. The grangeers feel that they have found a real leader in the person of Mr. Hulet and are looking forward to years of success and prosperity for the Order.

The State Grange session opened in the high school building, at Medford Tuesday morning at ten o'clock, with the State Master in charge. The Mayor of Medford welcomed the visitors.

Mr. and Mrs. Arthur Edwards Master of Surprise Grange were delegates.

## Falls In Creek

Keith, the 4 year old son of Mr. and Mrs. J. M. Bones, fell from the bridge, which spans the creek just north of the Bones home. He was rescued by his sister; Ruth, age 7, and a playmate, Melvin Baker, age 7. Fortunately for Master Keith he fell where the water was rather shallow, however he suffered a painful cut on his head and was dazed and thoroughly drenched when rescued. Mrs. Ada Sparkes dressed the cut on his head and the young man is gradually recovering from shock and has quite made up his mind to stay on terra firma.

Word has been received that Ralph Hussey is in the Veterans hospital and John Schifferer has returned from the hospital in Portland.
