## NEWS OF OREGON STATED IN BRIEF

TELEGRAPHIC CHRONICLE OF STATE HAPPENINGS.

### ST. HELENS JURY DIVIDED

Seven Members Stand for Conviction and Five for Acquittal in Blackmail Case.

St. Helens—With seven members standing for conviction and five for acquittal, the jury in the sensational Blakesley blackmail case was discharged by Circuit Judge J. A. Eakin. For only a few minutes less than 24 hours the jurymen deliberated over the evidence presented by the state against "Toots" Blakesley, charged with the attempted extortion of money from County Treasurer E. E. Quick. Every phase was discussed and at times the arguments were violent.

As neither representatives of the office of the district attorney nor either member of Blakesley's counsel were present, Judge Eakin set no date for a new trial. St. Helens citizens are free in expressing their belief that there will be no second arraignment.

District Attorney Tongue himself contributes to the belief that the blackmail case is now only history by intimating that if he could not secure a conviction on the evidence submitted he would be compelled to drop the case.

### Family Hard to Remove.

Albany—Displaying unparalleled tenacity of purpose, Mr. and Mrs. H. Zastrow of Lebanon have disregarded court orders, deputy sheriffs, padlocks and log chains and have moved back into a house from which they were recently evicted by Sheriff Smith under orders of the state circuit court. For three years the Zastrows fought for this property through the courts, contesting every step bitterly, and now, unsuccessful in their legal battle, they have refused to abide by the law, and thus far, repelling all invaders, are living in the house in which, the court says, they have no right to stay.

### Portland Seeks Low Rates.

Portland—For the first time since the Lewis and Clark Exposition, Portland is preparing to ask the Transcontinental Passenger Association for special reduced round-trip rates from all points in the East to the Pacific Northwest. The special excursion rates will be asked for about ten days preceding the next rose festival, June 6-11, and good returning within a suitable time limit thereafter. This is to be in addition to the regular low-rate tourist tickets which are sold all season, beginning about June 1.

### Bachelor Renters Lose.

Pendleton—Hereafter a man who is not married will not be permitted to rent land of the Indians on the Umatilla reservation, according to rules just promulgated by the department of Indian affairs. An exception is made in the case of a young man who resides with his parents on the reservation. Single men who are renters at present will not be ousted, but they must get married before the expiration of their present leases or only be permitted to lease 320 instead of 640 acres.

### Negro Porter to Be Tried.

The Galles—Judge Bradshaw will convene the November term of circuit court in The Dalles, Monday, November 8.

The criminal docket will be short. Only two prisoners now in the jail here are likely to be indicted by the grand jury—R. E. Brooks, the negro Pullman car porter, who last spring shot two Illinois Central railroad officials at Shaniko, and E. E. Wilson, charged with larceny and jail breaking.

### Oregon A-Y-P Building Sold.

Portland—The Oregon building at the Alaska-Yukon-Pacific Exposition has been sold to the University of Washington. The board of regents of the university will pay a nominal sum for the structure and will have possession as soon as the Oregon exhibition has been removed. Formal sale was necessary, as under Oregon law the commission was not permitted to give away the state's property. The Oregon building cost approximately \$40,000.

### Farmer Plows Up Paraffine.

Astoria—While plowing in a field near Chinook, a farmer unearthed a quantity of wax-like substance, which while slightly lighter in color, closely resembles the so-called "beeswax" discovered years ago on the ocean beach near Nehalem bay.

The article is said to be ozocerite, which is sometimes called mineral wax, or native paraffine.

## PRINCE ITO IS KILLED IN COREA

JAPAN'S LEADING STATESMAN ASSASSINATED.

### MIKADO'S NATION MOURNS

Diplomat on Mission From Emperor to Confer With Russian Minister of Finance.

Tokio, Oct. 26.—News has been received here that Prince Ito, the famous Japanese statesman, has been assassinated by a Korean at Harbin. It has caused great grief and consternation in Japan.

Prince Hirobumi Ito was perhaps the greatest statesman of new Japan. The achievement with which his name has been chiefly associated in the minds of Occidentals was the framing of the imperial constitution, by virtue of which Japan took her place for the first time in the rank of modern civilized states.

Prince Ito, who was president of the privy council of Japan, left Tokio October 16 for a tour of Manchuria. He was to meet M. Kokovoff, Russian minister of finance, in Harbin. The meeting, it was said, was at the behest of Japan and Russia. Foreign diplomats had attached great importance to it, although the exact motives impelling Japan to propose the conference were not known.

Prince Ito visited the United States in 1870 as a commissioner to investigate the financial and banking systems. He was 68 years old.

### BRANDS COOK AS A FAKER

Alaskan Miner Says Doctor Did Not Make the Climb.

Bellingham, Wash., Oct. 25.—"If Dr. Cook says he climbed to the top of Mount McKinley, he tells an untruth," is the way Jacob Suter, an old, experienced mountaineer and prospector, defines his ideas of the famous North Pole explorer's claim to have made an ascent of that mountain.

"Dr. Cook never reached the summit of Mount McKinley, and I want to say right here that no other man ever made the top. In the first place it is a physical impossibility, for the peak of that mountain is a pyramid or pinnacle of solid, glaring ice, almost perpendicular, and no man, even if he chopped steps in the ice, could climb up. I have been all around that mountain and know exactly what I am talking about."

### Spain in Ferment.

Madrid, Oct. 25.—Several thousand Republicans and Socialists, headed by Deputy Alejandro Leroux, chief of the Republicans in Barcelona, paraded the principal street of Madrid yesterday in protest against ex-Premier Maura's policy. ### Gatemen Not to Be Tried.

The state is suing the Corvallis & Eastern Railroad Company for \$10,000 because it did not comply with a specific order of the commission in regard to railroad improvement at Lyons, Linn county.

## KING EDWARD IS SCARED OF LIBERALS

If Government Bill Fails to Pass, Abolition of Lords to Be Asked.

London, Oct. 26.—All England is seething with excitement over the news that King Edward has at last taken a hand in the great parliamentary struggle over the government's new financial bill, spoken of as the budget. Such a significant step has not been taken since the days when King George III by his interference with parliament managed to bring about the American revolutionary war.

The finance bill, with its proposed taxation of land, has created a general panic among the titled and wealthy classes. It is denounced as little short of anarchy and the liberals are accused of endeavoring to undermine the whole British empire.

Unless the unexpected happens, it is predicted that the house of lords will refuse to pass the government's bill, even with the 250 amendments which have been made to it since it was introduced.

The extreme liberals and classes everywhere are raising a cry, "the lords must go." King Edward is fully alive to the gravity of the situation. He realizes that if the house of lords were abolished people might be led to demand next abolition of the throne, with great salaries, pension lists and wholesale extravagance.

### FOWLER DESIRES DEBATE

Challenges Senator Aldrich on Subject of Central Bank.

Elizabeth, N. J., Oct. 26.—Chas. Fowler, congressman from the 1st New Jersey district and ex-chairman of the house committee on banking and currency, has addressed a letter to Senator Aldrich, chief of the finance committee of the senate, challenging him to a joint conference in one or more cities, on the subject of a central bank.

Mr. Fowler is opposed to the establishment of a central bank on existing conditions, because it would come most discouragingly heartening favoritism and the ultimate destruction of our purely individual and independent form of banking.

### Moros Buy Guns.

### Gresham—Seized with an attack of dementia.

Mrs. Lena Heiney, wife of a sawmill employe living near Gresham, murdered her 17-month-old adopted baby girl, after which she walked a mile and a half from her home and committed suicide by throwing herself before a rapidly moving electric car loaded with passengers.

### Salem—Acting as friend of the court.

District Attorney McNary has requested and been granted the privilege of filing a brief in reply to the motion of Attorney-General Crawford in the Sam Cochran case. The attorney-general's motion included an extended argument tending to show that Justices King and Slater are illegally acting as justices, inasmuch as it is claimed there is no constitutional authority for more than three justices.
