HIGH SCHOOL ALUMNI GIVE SIX O'CLOCK BREAKFAST

Ontario High School Alumni gave a six o'clock breakfast to the graduation class and the teachers on Saturday morning in the room formerly occupied by the Annex cafe. There were forty present, even at that hour. Chet Lackey acted as toastmaster and talks were made by Prof. Bailey, A. A. Hall and Leona Ruder, the class president. It was a very enjoyable affair, the young ladies having charge receiving many pleasant words for their work.

ARE DRILLING FOR ARTESIAN WATER ON DEARMOND RANCH

Dick Dearmond is down from the ranch and reports that while he has not got an artesian well as yet, he expects to have one most any day as the drillers are deep enough to strike the artesian flow as all his neighbors have struck flowing wells.

GOVERNOR JOHNSON SIGNS LAND BILL

Three Elements Likely to Invoke
Referendum--Act Becomes
Operative August 10.

Sacramento.—California's alien land bill was signed by Governor Johnson against the protests of Japan and the representations of President Wilson and his personal envoy, Secretary Bryan. The governor signed the bill and 90 days after the adjournment of the legislature, which will be August 10, the act becomes operative.

Within California the act has encountered triple hostility which may delay its actuality until November, 1913. In the first place, the democrats opposed state legislation at this time, as a matter of party regularity. The Asiatic Exclusion League, an organization of which the president is Olaf Tveitmo, recently convicted of complicity in the national dynamite plot originating in Indianapolis, announced that it would invoke the referendum purely because it opposes the bill as faint-hearted.

Thirdly, the powerful Panama-Pacific International Exposition company, backed by many chambers of commerce, has placed itself on record in opposition to the bill on the ground that it is a violation of faith.

JAPAN STILL SHOWS FAITH

Likelihood of Estrangement of Peoples, However, Admitted.

Tokio.—Faith in the American people to see that justice is done the Japanese is the dominating note in the discussion of the California alien land ownership legislation.

War talk is denounced as ridiculous and only calculated to embarrass the two governments, which are laboring for a peaceful settlement by diplomacy.

It is conceded, however, that failure on the part of the Americans to respond to the Japanese appeal for a discontinuance of the alleged discrimination would be likely to lead to some estrangement of the peoples. The Japanese public generally is convinced that the land bill is a racial and not an economic measure and hence a blow to national pride, and the people feel that the world must be taught the necessity of equal treatment for the whites and non-whites.

Bill More Drastic Than California's.

Phoenix, Ariz.—An anti-alien land ownership bill far more drastic than the bill recently passed by the California legislature has been signed by Governor Hunt, following its passage by both houses of the state legislature.

The new law makes it impossible for aliens of any color to hold land unless they have declared their intention of becoming citizens. Non-citizens now holding land will be compelled to dispose of it within five years. Mining claims or property necessary to the working of mines alone is exempted.

GOVERNMENT MUST PAY

Treatment of Ill, Waiting Aliens Not Steamship's Duty.

New York.—A decision handed down by Judge Mayer in the United States district court will cost the United States government about \$1,000,000 a year from now on. It holds that the government must pay for medical aid to aliens brought to this country and found after their arrival at Ellis Island to be suffering from some temporary contagious disease.

The government sought to collect from the Holland-American Steamship company \$2167 for such treatment, but the court, in finding for the defendants, declared that the immigration laws make no provision for the steamship company to pay for medical treatment for ailing aliens. Unless overruled by a higher court, the decision will apply to all steamship lines.

Borah May Be President.

New York.—Harper's Weekly makes the following editorial forecast:

"We predict that the next republican candidate for president of the United States will be William E. Borah of Idaho."

More than a year before Woodrow Wilson's nomination Harper's made a similar prediction, which fact is referred to editorially by the New York Sun.

Cuban Makes Flight Across Strait.

Havana.—Domingo Rosillo, the Cuban aviator, made the first flight ever accomplished by a Cuban airman across the Florida Straits from shore to shore. He started from Key West, making the passage to Havana of 90 miles in 2 hours and 26 minutes.

Dynamite Cruiser Rent by Torpedo.

Newport, R. I.—The torpedo boat Vesuvius was struck by one of its own torpedoes and was beached on Hope Island, Narragansett Bay, when the lives of those on board seemed imperiled by the waters which rushed in through a two-inch hole astern.
