SAVING TIME by TELEPHONE

Means Not Only Time But Money.

Do you ever consider how long it takes to travel the distance from your house to the Doctor and Merchant and what time you save by telephoning? If your time is worth anything, you cannot afford to be without a Telephone.

Malheur Home Telephone Co.

NEWS OF GENERAL INTEREST IN IDAHO

Important Occurrences Of The Past Week From Cities In Our State

Women on Inquest Jury
Weiser.—Coroner McCann returned from Robnet, Or., where he held an inquest over the body of an unidentified man found in Snake river on the Idaho side. Nothing was found that would lead to identify. Besides other minor articles a watch, \$5 gold piece and 60 cents in small change were found in the pockets. The watch is a seven-jewel open-faced Waltham, the works are numbered 3734583, and the nickel case bears the number 11139. The watch will be sent to the manufacturers and an effort made to identify the unfortunate owner.

For the first time in the history of this county, and perhaps the state, women sat on the coroner's jury. It was impossible to complete the jury of six men without going several miles out of his way, and in order to hasten matters McCann swore in two women and proceeded with his gruesome duties. He declares the women stood the ordeal fully as well as the other members. The jury was of the opinion the body had been in the water fully six weeks.

SENATOR BRADY MARRIED

Chicago.—United States Senator James H. Brady, of Idaho, and Miss Irene Moore, daughter of Mrs. George M. Moore, of this city, were married at the home of the bride's cousin, Mr. Arthur L. Moore, Ravine drive, Highland Park, a Chicago suburb.

After the ceremony the bridal couple left for Washington and will be at home after June 15 at 1700 Rhode Island Avenue, N. Y.

Indian Boy Beats Cupid

Spokane.—After a series of futile attempts to secure a marriage license that he might claim Eather Wynecoop, a Spokane Indian maid, as his bride, Alex Pierre, age 20 years, an Indian boy of Worley, Idaho, was able to get his uncle, Spokane Enos, to the county auditor's office and obtained the coveted credentials.

Pierre, a Nez Perce, formerly attended the Cushman school at Tacoma. He arrived in Spokane to make final preparations for the marriage ceremony. When he reached the office of the county auditor with the Indian maid he found that she was old enough to get married if she liked, but that he would not be able to get the license until his guardian, Spokane Enos, consented to the ceremony.

That the bride might depart for her home without delay she was permitted to leave her signature at the office.

"Drys" Win Fight

Weiser.—After a lively battle during the past month, the wet forces met defeat in the local option election held in Washington county. Twelve out of 15 precincts gave the "drys" a majority of 776. Only two precincts were carried by the wets. The remaining precincts are expected to slightly reduce the majority.

The results were a big surprise, as the majority is nearly four times greater than that of two years ago. The "drys" carried Weiser by 179 majority.

FLOOD WATERS RECEDING

St. Joe Valley Is Lake, Burke Is Cut Off and Business Houses Damaged

Boise.—Flood waters caused by the heavy rains, have receded considerably, following a drop in the temperature.

At Burke, where the principal damage was done, owing to the overflowing of its banks by Canyon Creek, the waters have receded into the banks. It will require a great deal of work to repair the damage done to business houses and residences in the waters' path, as they flowed down the main street.

At Yellow Dog, near Mace, nearly 100 feet of railroad track is washed out and all the canyon towns above Mace are isolated, so far as railroad traffic is concerned. Both railroads are damaged to such an extent that no trains can reach Burke.

The Hercules mine was compelled to close.

With three swollen rivers pouring their torrents into Lake Coeur d'Alene from which it takes its source, the Spokane river has reached a height greater than has been recorded since the historic floods of 1894, and is still rising.

Damage At Nez Perce Heavy

Lewiston.—Later advices received from the vicinity of Nez Perce, which was visited by a cloudburst and hail storm, place the damage at more than \$100,000. The path of the hail storm is about five miles long and a mile in width. Some of the grain in the path of the storm was a total loss and will be plowed under at once.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Apple Men Don't Agree

Hood River.—Although the decision of the Hood River applegrowers in mass meeting here, when representatives were present from the nine divisions into which the states of Idaho, Montana, Washington and Oregon had been divided by the North Pacific distributors, was favorable to the central distributing and selling agency organized last fall at Spokane, the entire responsibility of affiliation with the distributors was left to the board of directors of the Applegrowers' Association, the recently-formed combination of local apple sales companies. As to whether or not local fruit will be shipped by the distributors this year hangs on the concession of the board of trustees of the central agency allowing the Western Oregon districts to have a main office at Hood River instead of having all of the business of the concern transacted at Spokane.

BIG PINE PLANT DESTROYED

Largest of Six Mills Consumed When Arc Spark Flies in Shavings

Baker.—The plant of the Baker White Pine Lumber company was totally destroyed by fire. The loss is estimated at from \$200,000 to \$250,000, fully covered by insurance.

The fire originated presumably from a spark from an arc in the shavings room, adjoining the boiler room. Engineer King was alone in the engine room. It was between shifts. He was badly injured. He stayed in the engine room to sound the whistle for the alarm after the fire gained headway.

The entire plant, including sawmill, a new dry kiln, the most modern in eastern Oregon, was burned. The mill was the largest, best equipped and most modern of the six large mills operating here.

Schooner Randolph Blown Ashore

Gold Beach.—The gasoline schooner Randolph, loaded with supplies for the Wedderburn cannery, is fast aground on the south spit of Rogue river. The engine refused to work just as the vessel was in the entrance of the river. A sail was hoisted in an attempt to make it through the breakers, but a heavy wind blew her upon the beach. The cargo is safe.

Acquitted Upon Charge of Libel

Portland.—Evidently not satisfied beyond a reasonable doubt that the Portland Daily News was malicious and untruthful when it called County Judge Cleeton and County Commissioner Lightner "plain robbers" last January, the jury in the libel case against the News, with Cleeton and Lightner as prosecuting witnesses, returned a verdict of "not guilty." The jury was out about six hours.

INFATUATED MAN KILLS

Mrs. Fisher, 22, Meets Untimely End; Husband Unable to Rescue Her.

Portland.—A bullet fired through her temple by an infatuated lover ended the life of Mrs. Neo Fisher, pretty and misguided, the tragic climax of an "affair" with the man, who then shot himself and fell dead across her body.

The man, E. W. Allen, a plumber, working for the Portland Heating company, had become crazed over her, a married woman. He rushed into the house at 308 Montgomery street, where she lived with her husband, dashed up the stairs and into her room.

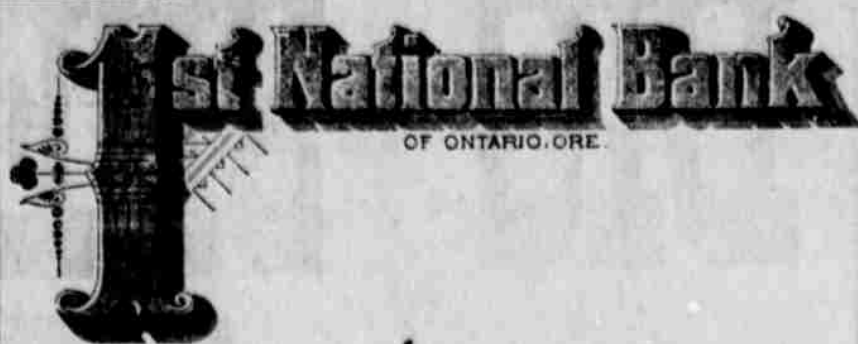

For 20 minutes with the door barricaded, he kept her there holding off with threats of death any who should interfere with him. He fired three shots at her husband, Jess Fisher, who is working on the construction of a new fire station at Fourth and Montgomery streets, two blocks away, and had been summoned to save his wife.

Timber Held Real Estate

Hillsboro.—The injunction suit of Charles J. Cowanah, an Indian, to stop the operation of the Reese mill, 10 miles north of Hillsboro, was won by Cowanah. The mill stands on land sold by Cowanah, and on which he holds a mortgage for \$4200. His complaint in the case alleges that defendants will abandon the land after cutting the timber and that his security is impaired. Interest attaches to the case from the insanity charge brought against plaintiff by one of the operators of the mill. At the hearing he was declared sane and discharged.

Ida Kennedy did the talking for the trio. She and Lucy Qualette and Christina Pablo admitted altering money orders which their parents in Montana had sent them.

"We needed the extra money," she told the judge. "We knew it wasn't exactly right, but didn't think it was so very wrong."
