 tion--new or old

GET BUSY NOW

Young? Yes—the oldest Ford is just ten years young this month. And its youngest brother is the choice of the lot—a better car than those we built not long ago and sold at nearly twice its price. Big production makes the Ford price low.

More than 275,000 Fords now in service—convincing evidence of their wonderful merit. Runabout, \$600; Touring Car, \$675; Town Car, \$875—f. o. b. Ontario with all equipment. Get interesting "Ford Times" from Dept. F, Detroit.

Ford Auto Company
 Ontario, Ore.

David Wilson, who is considered the father of Ontario, was here several days last week looking after his property interests. Mr. Wilson considers business conditions so good here that he advanced rents on all his tenants. In most cities the rents are being reduced. Mr. Wilson is seriously considering the advisability of erecting more business houses here of modern construction as there is a demand for good buildings, steam heated, with basements.

A. J. QUACKENBUSH RETURNS FROM TRIP TO CALIFORNIA

A. J. Quackenbush is home from a trip to the Imperial valley and other points in southern California. He says he was disappointed in the valley and the entire section, in fact. They raise alfalfa there, but it is altogether a different plant from what is grown here. It is a small thing there and does not outgrow two ton to the acre, but they get five and six cuttings. There are many drawbacks to that section and it does one good to look it over, especially after reading the literature describing it, as the Snake river valley is so far ahead of it there is no comparison.

IOWA MAN LANDS BIG FISH.

Clint Smith, of Marshtown, Iowa, who is visiting at the home of O. C. Stout, near Fruitland, seems to be an expert fisherman, as he had no trouble in landing a sturgeon a few days ago that measured seven feet nine inches in length and weighing 170 pounds. Mr. Smith had never fished for sturgeon before, but was induced to try his luck and while he did not get the largest of the season, he did get one that was large enough for all the neighbors to share. Now that he has got the knack of it he believes that he will be able to land one of the 400 pounders.
