

# 284,000 Votes Polled This Week

## Voting Continues Heavy. Miss Maude Kidd Won the Prize This Week-- The Lady's Silver Hand Bag

The Argus and these business firms are much pleased to be able to print a list which shows such a remarkable degree of activity as does the list printed this week.

Over 284,000 votes were cast the last week. Well over the 250,000 mark. The candidates and their friends certainly are working hard to win the McIntyre. There are now 50 active candidates in the race.

### SUCCESS MEANS EFFORT.

The right sort of effort now will place any contestant upon an equal footing with those whose names have appeared from the beginning, but have so far shown only a passive interest. To catch up with the leaders will be harder, but it can be done and the prize is worth the effort.

Success in this race means much to the winners. It carries with it an influence of great value in future undertakings. There is nothing to success in the race but diligence, energy and application. Commander Vanderbilt, when asked what his secret of success was, laughingly replied that he had simply paid attention to business and gone ahead. The same rule applies in the contest business.

Do not lose sight of the fact that subscriptions are a source of votes. The more people who subscribe to the Argus and vote for you, and the more people who trade at these firms and say, "Cast these votes for Miss Smith" the greater your success will be. Your friends are not going to help you unless you ask them. Moral: Ask them and ye shall receive.

## BRYAN INTIMATES ADMINISTRATION'S MEXICAN POLICY

Continued from page 1

this country would establish a protectorate over all Central American countries to guard the Panama Canal, Secretary Tumulty stated that there was absolutely no foundation in truth for either of the above statements.

Reports of conditions surrounding the Huerta government in Mexico have put administration officials in an attitude of keenest apprehension toward the situation there. Advices which officials believe to be perfectly trustworthy seem to indicate that the strife between the Huerta regime and the revolutionary elements is nearing a point where some definite conclusion is to be reached.

**Nelson and Clapp Reply to Mulhall**  
Two senators, Nelson and Clapp, of Minnesota, took the stand before the committee of their colleagues investigating the "lobby" and denied the truth of statements made by Martin M. Mulhall, all around field worker for the National Association of Manufacturers.

In letters read into the record Mulhall told of conversations with Senator Nelson—a member of the lobby committee—in relation to the rejection early in 1909 of a bill amending the Sherman anti-trust act by a senate subcommittee, of which Mr. Nelson was chairman.

In one letter Mulhall spoke of being introduced to Senator Clapp by Mr. Nelson and of talking with both men about a recent decision under the Sherman act.

### National Capital Brevities

Washington advices say that both foreign and American commercial interests are clamoring for recognition by the United States of the Huerta government in Mexico.

President Wilson has selected William L. Chambers, of the District of Columbia, to be commissioner of mediation and conciliation under the Newlands act.

An official message was sent from Washington to Henry Lane Wilson, American ambassador to Mexico city, to come at once to Washington.

Chile has signified its willingness to consider the details of Secretary Bryan's peace plan. It has become the 23d nation to endorse the plan in principle.

Representative Underwood of Alabama, democratic house leader, has expressed satisfaction with the progress that is now being made with the new tariff law.

The government has established banking by mail in connection with the postal savings bank system. Deposits may be made and withdrawals effected hereafter by mail, and an official announcement to that effect is being sent to the postmasters throughout the country.
