Entered in the postoffice at Ontario, Oregon, for transmission through the mails as second-class matter.

M. E. BAIN, Publisher.

An exchange says that gossips have motor cycles beaten to a frazzle when it comes to running people down.

It is remarked that the mail order houses have not relaxed their efforts to get business just because a few dull months in the year appear and the parcel post rate has been changed. They everlastingly keep at the advertising end of their business.

Too many printers do business like a citizen who went into the hog business. He fed the hogs ten dollars worth of corn and then sold them for \$7.50. He said he lost on the corn, but made a little something on the hogs.

Ham Kautzman, one of the publishers of the Columbia Herald at Houlton Oregon was arrested last week for sending obscene matter through the mails. Ham claims that he printed the same stuff forty years ago, the inspector did not consider the age sufficient to place it among the classics.

The farmers and business men around Parma have gone into the hog business and are now shipping about sixty carloads a year to the markets. If these were cared for at home it would go a long ways toward supplying the local demand for lard, hams and bacon.

Last week there was a Jap here with a white wife, both claiming Nyssa as their home. In the South when a white woman marries a negro, the other negroes all shun her, considering themselves in a different class, and the same with the offspring of these mixed marriages, neither the white or colored children will associate with them.

The Burns Times-Herald has a story about a co-operative packing plant, where all the farmers are invited to have their hogs killed and the meat cured. This will afford a home market for the farmer and keep money at home that has been going to the eastern packers, commission men and railroads. The Snake river valley imports trainloads of bacon, hams, lard and cheese, all of which can be produced here cheaper than elsewhere.

One of the causes of the high cost of living is the extra price paid for flour. It does not matter how good a grade of flour is made in the home town, the housewife insists on flour made in her old home or at least sold there, under the impression it is better. It is a common custom for millers to sell several grades of flour from the same bin, because the people insist on being fooled. All of this adds to the cost and is true of many things besides flour.

A wife never runs off when you want her to. Folks that used to go home when their wuzn't anywhere else 't go now go 't' th' pictur the-a-ters.--Abe Martin.

The Harney County News has named William Hanley as the next Republican nominee for governor, Clakamas county has Grant Dimick and W. S. Uren, Josephine county has Dr. J. C. Smith, Multnomah has T. T. Geer; Jackson county names Hon. H. Von der Hellen. Hanley should be an easy winner with that bunch. Geer was quite a man twenty years ago. Uren has been fighting the republican party for 20 yrs. and the rest of the bunch, with the exception of Dimick, are of the same caliber. Dimick would make a good governor as he has the ability and has had experience.

Here is something from a magazine which, if true, will make the average housewife feel much like the man who wound his clock regularly every night for twenty years before he found out that it was one of the 8 day variety. "Put your green peas, pods and all, into the kettle and cook them the usual length of time; when they are done the pods will break and come to the surface, while the peas will be found at the bottom of the kettle. They have a finer flavor cooked that way."

The live merchants of Ontario are all represented in the columns of the Argus and it will pay you to read their messages about their stores. This is the season they make special inducements for your trade.
