

THINK WHAT IT NOW MEANS

You Pay For The Time You Lose.

Mrs. Winnie Minister Wins the Prize

---The Beautiful Bracelet

Which proves that it doesn't pay not to wake up. Right now is the time to put in your best work. Effort exerted now will be worth ten times the same amount of work later on. Get in the lead if possible and stay there. Don't stand back on formality and wait for your friends to present subscriptions to you on a silver platter. In the first place they may not know that you are in the contest if you do not tell them. And in the second place people like to help those who help themselves. Almost any contestant would like to be the glad winner of an automobile, the name of which is standard for merit and quality. Win one for yourself easily. The contest is being conducted in a manner which satisfies the Contest Manager that every candidate entered is being extended any courtesies which may be requested from his department in the way of information and the mailing and sending of supplies and blanks to be used in the work of securing subscriptions. The letters to the Contest Manager indicate that this feeling on the part of the paper is but a reflection of the unanimous sentiment expressed by those participating in the race for the prizes. With perfect understanding existing in this most essential respect there should be no reason why each contestant should not do her utmost to obtain as many votes as possible. Roll up your coat now. Do not wait until tomorrow. The hustlers are right now out among their friends working. Be one of the ladies who take advantage of the existing opportunity, and if the Contest Manager can be of any assistance in furnishing you with blanks or supplies or advice regarding the contest, call on him for same.

Mrs. W. H. Raver continues in the lead having increased her votes by nearly 4500.

IDAHO PROMOTER IN JAIL

W. A. Matthews Must Answer Charge of Swindling Denver Bank.

Boise.—Another chapter in the case of W. A. Matthews, alleged defaulting promoter of the Overland Insurance company has been added through the confession of Matthews that he swindled the First National bank, of Denver, out of \$650.

After organizing the Montana Fire Insurance company, of Montana, Matthews came to Idaho for the purpose of organizing the Overland Insurance company. James E. Clinton, Jr., and F. F. Johnson, vice-president and cashier respectively of the Boise City National bank of this city as president and treasurer respectively. Matthews also interested George Fletcher, president of the Idaho National bank. He absconded before the company was organized and it was said he took with him \$20,000 collected for stock purchased by Southern Idaho bankers and business men. Most of the payments made to him were in certificates of deposit and these he had cashed at the Idaho National bank.

Idaho Forests Protected.

Weiner.—Disastrous results from forest fires will be reduced to a minimum once the co-operative plans of the state, government and timber interests get well organized, according to Charles A. Hackney, master fire warden, whose district covers southwestern Idaho.

During wet weather Mr. Hackney says his men will be engaged in repairing old trails and building new ones. At all times they will be within easy reach of telephone connection with the forest service.

The government bears half the expense.

Quadrennial Trip of Toads Taken.

Klamath Falls.—Millions of small toads are now making their way from the swamps surrounding Lake Ewau to the Upper Klamath lake. Every few years, during the latter part of July, the reptiles leave the marshes along the lake and work their way through the streets of the city to Link river. They do not take the line of least resistance for their march, which is along the lake shore, but come the shortest route through the city. The hegin of toads occurs about every four years.

THE MARKETS.

Portland.

Wheat, New Crop—Club, 78c; blue stem, 82c; red Russian, 77c.
Hay—Timothy, \$22; alfalfa, \$13.50.

Wool—Eastern Oregon, 16c; Willamette valley, 19c.

Seattle.

Wheat, New Crop—Bluestem, 80c; club, 78c; red Russian, 77c.
Eggs—28c.
Butter—Creamery, 31c.
Hay—Timothy, \$22 per ton; alfalfa, \$13 per ton.

MUCH OREGON LAND TO BE THROWN OPEN

Portland.—Thousands of acres of Oregon agricultural land heretofore included in the national forest reserves will be thrown open for settlement before the end of the year.

Most of this land is in the Sluslaw and in the Paulina national forests, but acreage in other districts also may be affected.

Within the last year the federal Forestry bureau has been developing a more liberal attitude toward prospective settlers. This new attitude is finding expression in the apparent policy of the forestry officials to return all agricultural land within the forest areas to the public domain.

The recent visit to Oregon of Henry S. Graves, chief forester of the United States, and the approaching visit of David Franklin Houston, secretary of agriculture, are for the purpose of interpreting to the people of this state the meaning of this newly developed policy.

Spokane Recall Denied

Spokane.—By a decision of Judge E. H. Sullivan in the superior court the 15 per cent recall petitions filed against Mayor Hindley and Commissioner Robert Fairley are held invalid. The judge denied the writ of mandamus asked by the Central Labor Council to force the council to order the recall election.

Education Board Convenes.

Moscow.—Herman J. Rossi, secretary of the state board of education and chairman of the sub-committee which has as part of its special duty the supervising of the business of the University of Idaho, is in conference with Acting President W. L. Carlyle. At this conference it is understood that Mr. Rossi, after conferring with Dr. Carlyle, will make recommendations to the committee for the chair of economics and political science and if agreeable the committee then is to submit its appointments to the full meeting of the state board for its confirmation.

Find May Be Ambergris.

Marshfield.—Frank Blackberry, until recently a member of the Umpqua Life-Saving station crew at Gardiner, is the possessor of an 85-pound lump that is really worth its weight in gold, that is unless he and those who have examined it are badly deceived. It is said to be ambergris. He found it in the breakers, while patrolling the beach. Samples were sent to David Starr Jordan in California. The latter replied that it apparently was genuine ambergris, but it probably would be necessary to send samples to France to definitely determine it and so Blackberry will. Ambergris is worth \$500 or \$1000 a pound.

Remorse Makes Fugitive Surrender.

Albany.—A fugitive from justice since December 8, 1912, since when the county has offered a reward of \$100 for his arrest, Paul Ackerman, who shot and seriously injured Jack Leib in a road near Shedd, while the latter was buggy riding with his sweetheart, gave himself up to the authorities. Although his victim has recovered from the injuries, Ackerman said that the incident continually preyed upon his mind and he assigned this as the reason for giving himself up. He has been tramping through California.

Socialists Denounce Coos Sheriff

Coquille.—The socialists of Coos county, in a convention called here for the purpose of denouncing the action of residents of this section in deporting Dr. B. K. Leach, adopted resolutions addressed to Governor West, asking that the sheriff of Coos county be removed from office because he "refused to enforce the law against mob rule."

FIREMEN GUARD FORESTS

Nation Joins State, Counties and Timber Owners to Protect Billions.

Salem.—To protect its billions of feet of timber from the ravages of fire, the state, with the aid of the federal government, is this year taking more elaborate precautions than ever before, and as a result of the work there has not been a disastrous fire this season. Timber owners will spend about \$150,000 for fire protection, the federal government has appropriated for fire patrol work \$150,000, and a law passed at the last session of the state legislature places at the command of the state board of forestry \$75,000 for the next two years.

Oregon has one-fifth of the standing timber of the United States, or about 545,000,000,000 feet, worth on the stump \$680,000,000, and if manufactured would sell for \$6,822,500,000. The money expended and the precautions taken are in protection of the state's chief resource. The forests already distribute more wealth to the state than apples, fish, wool and wheat combined, and the marketing of the timber has scarcely begun.

CANADA OBJECTS TO HINDUS

Plan to Land 100,000 Moves Government to Act.

Vancouver, B. C.—That a well-developed scheme has matured to bring upwards of 100,000 Hindu men and women to Canada by the direct line of steamers, which it has been rumored is to be started between India and British Columbia, is the report that has been received from confidential agents of the Canadian government immigration department.

The question was officially taken up in Ottawa where the government has decided that, though they are British subjects, they cannot be allowed to land. It is alleged that so carefully have the plans been made that every newcomer will be provided with the \$25 imposed by the government on every prospective immigrant.

JAPS EVADE RESTRICTIONS

Oriental Cross Pacific and Are Captured on California Coast.

Point Arena, Cal.—Following the report sent by wireless by the steamer Henry T. Scott that a Japanese junk had been sighted off the coast near here, Constable Ketchum arrested 15 Japanese as they were making their way through the woods. This is the second capture of the sort that has been made on the coast line north of San Francisco within the past two weeks and it leads immigration officials to believe that venturesome Japanese have hit on a new method of evading immigration restrictions, a method that consists of crossing the Pacific ocean in flimsy fishing boats. One of these vessels is being held at Eureka now, a craft 50 feet long by 10 feet beam, and held together by ancient wooden clamps.

The Japanese held here have been unwilling to give an account of themselves.

Apple Talks to Be Given

Portland.—Representatives of the United States bureau of plant industry and fruit growers of the northwest will hold a series of meetings to discuss in a general way the subject of apple storage and refrigeration, and to report something of the progress of the government's investigations as to the behavior of fruit in cold storage.

The meeting places and dates are scheduled as follows: Medford, Or., August 2; North Yakima, Wash., August 4; Prosser, Wash., August 5; Wenatchee, Wash., August 7; Freewater, Or., August 9; Payette, Idaho, August 11; Hood River, Or., August 12 or 13; Portland, August 14.

Coal Vein in Nehalem Valley.

Clatskanie.—J. M. Davey, of the department of the interior, government service, has been in this vicinity locating coal and mineral lands. He returned from a trip through the Nehalem valley and reported the finding of coal in marketable and workable quantities in the southern part of the county, principally in the Pebble creek district.

Rabbit Squad is Named.

Salem.—Governor West has appointed W. L. Finley, state game warden; Dr. W. H. Lytle, state veterinarian, and T. D. Beckwith, professor of bacteriology in the Oregon Agricultural college, a commission to devise a plan for the extermination of rabbits, which have become a pest in the southern part of the state.

Brief News of the Week

That a large number of vacancies exist in the nominations for West Point cadetships is shown in a list published by the war department. The entrance examinations will take place next March.

The couriers representing the New York division of the woman suffrage movement are assembling there preparatory to their journey to Washington to present petitions to congress July 31.

The first payment of \$250,000 in annual rental for the Panama canal zone has been made to Panama. This rental is in addition to the \$10,000,000 in cash paid nine years ago to Panama.

Surgeons of Los Angeles grafted a section of her left shin bone on the tubercular spine of Margaret Esberger, a 7-year-old patient, and the progress of the case is being watched with interest.

Hoping to defeat the intent of the California anti-alien land law by forming incorporations and later transferring stock, Japanese land companies are being incorporated at the rate of 20 per day.

Seven of the southern Chinese provinces have come to an agreement for joint action against the provisional president and the Pekin government, according to a dispatch from Canton.

In a clash at Calumet, Mich., with striking copper miners, more than a dozen deputies were injured, several of them seriously, and Governor Peris was asked to rush state troops to Calumet. The trouble followed an attempt by the miners to force machine shop employees to quit work, and some 100 shots were exchanged.
