ONTARIO, OREGON, THURSDAY, AUGUST 28, 1913.

NO. 35

BANKERS WOULD LIMIT APPOINTIVE POWER

And Suggest Many Other Changes in Currency Bill Before Congress

STRONG RESOLUTIONS PASSED

Chicago.—Bankers from all parts of the country at the end of a two days' conference here agreed on a number of important amendments to the Owen Glass currency bill now pending in congress and appointed a committee of seven to go to Washington and endeavor to have the changes incorporated in the measure.

The committee, named by A. Barton Hepburn of New York, chairman of the currency committee of the American Bankers' association and chairman of the conference, will journey to Washington to ask amendments to the present bill, the most important of which are these:

Taking from the president the power of appointing all seven of the members of the federal reserve board, which will dominate the currency situation and substituting a provision that three of the seven members shall be appointed by the president; three be named by the directors of the proposed federal reserve banks and that the seventh shall be the secretary of the treasury, who shall be a member ex-officio.

Creating one great central bank, instead of the 12 regional reserve banks provided for in the Owen-Glass bill; or if this be not obtainable, creating as few as possible and not more than five.

DEMOCRATS NAME M'CALL FOR MAYOR

New York.—Edward E. McCall, chairman of the public service commission, was designated as majority candidate by the Democratic city committee.

Mr. McCall's selection by the 630 delegates as leader of the Tammany forces was unanimous, as has been forecast since it appeared from announcements that the Tammany leaders had decided not to renominate Mayor Gaynor and that he would be nominated by the "Gaynor league" with a complete independent city ticket of its own.

Mayor Gaynor's determination to run for re-election as an independent guarantees one of the liveliest municipal campaigns New York has seen in several years. There will be three tickets in the field—Democratic, Fusion and Independent.

The Fusionists, who include Republicans, Progressives, Independence league and some Independent Democrats, have selected John Purroy Mitchell.

ANXIETY FELT IN MEXICO

Swift Break Predicted if Congress Debates President's Statement.

Mexico City.—The keenest anxiety was manifested in the capital as to what will be the development of the undertaking of the United States government in Mexico's internal affairs. Mexico's attitude is one of waiting, while the people resident here, both native and foreign, are displaying deep apprehension.

Rumors are that Huerta is still considering resigning in favor of General Trevino, but there is no sound basis for this assertion. The public opinion is expressed here that there will be a swift culmination of all peaceable relations if congress is given an opportunity for free debate on President Wilson's statement of the facts in the case.

MAYOR CENSORS GOWNS

Albee Says "Late Models Find Favor in the Underworld."

Portland.—Replying to a letter from a young woman who requested that he help her choose her fall gowns, to insure against purchase of any that would violate his "X-ray" proscription, Mayor Albee issued an open reply de-

TWENTYCARLOADS OF CLOVER SEED SHIPPED FROM PARMA

There will be twenty carloads of clover seed shipped from Parma this year. This 60,000 pounds of seed at 15 cents a pound will bring a nice income to the farmers of that section. The clover seed yield this year is running from 5 to 11 bushels per acre. A bushel of clover seed weighs 60 pounds so the yield runs from 300 to 660 pounds per acre. The average yield therefore, is about eight bushels, or 480 pounds per acre, and will return to the grower from \$50 to \$60 per acre according to the quality and price paid for it.

Among the successful clover seed growers may be mentioned C. H. Allen, 35 acres; Sam Tuning, 35 acres; Lee Baldrige, 15 acres; George Oberdorf, 20 acres; F. L. Dickerson, 15 acres; Fred Edmundson, 20 acres; Ben Ross, 20 acres.

MARTIN H. GLYNN

Martin H. Glynn, Lieutenant Governor of New York, who claims the right to act as governor, owing to impeachment proceedings against Governor Sulzer.

MRS. J. B. DOSSEY DIES FROM NERVOUS PROSTRATION

Mrs. Ida Dossey, wife of J. B. Dossey, died August 27, 1913, from a nervous breakdown after an operation for appendicitis and an abscess.

Mrs. Dossey was born in Johnson county, Arkansas January 5, 1883. Deceased leaves a husband and two small boys, her father and mother, Mr. and Mrs. J. D. Manser, two brothers and two sisters who reside here a sister in Iowa and one in Oklahoma.

The funeral was held this afternoon from the family residence in Riverside addition, Rev. Davidson having charge of the services. Interment was made in the Ontario cemetery.

BROOM CORN MAKES GOOD YIELD IN EMMETT DISTRICT

Broom corn was very successfully grown this year without irrigation in the Black Canyon district about seven miles north of Notus, by Albert Gray and Mr. Doolittle, who, together, had in about 15 acres. The straw in this corn is pronounced extra fine in quality. The crop from this 15 acres will probably be sold in Boise. It is believed the severe drought in the middle west, causing the destruction of millions of dollars worth of coas, including much broom corn, may cause an advance in the price of broom corn.

It is estimated that the crop of broom corn on these 15 acres will be about four tons. It is said now to be worth from \$175 to \$200 per ton, according to quality. Broom corn has brought \$300 per ton according to these figures Messrs. Gray and Doolittle should get something like \$800 for their 15 acres of broom corn in which case their return would be equal to something over \$50 per acre, which would be excellent for dry land farming.

PRESIDENT ADVISES AMERICANS TO LEAVE MEXICO

Every Suggestion of this Govrenment Rejected by Huerta Regime.

President Wilson Reads Message to Congress and Makes Public All Correspondence Between Mexico And the United States.

After delaying for several days, in hope that Mexico would decide to take more favorable action in regard to peace suggestions made by this government, President Wilson went before Congress Wednesday and revealed the policy of the administration in an attempt to bring about the termination of hostilities in that country. Although still persisting that the policy of this government would be one of non-interference, yet he realized that the situation is becoming critical and made an appeal for all American citizens to leave Mexico at once.

The message makes it plain that there will be no lifting of the embargo on arms; that no faction or government in Mexico will be allowed to receive munitions of war from the United States. If necessary the president proposes to increase the American border patrol to enforce this policy.

It is a message of friendship, not hostility, and precedes a policy of absolute non-interference. It proclaims to the world the sympathetic feeling that the United States government and the American people have for their neighbors in the rebellious republic south of the Rio Grande. It records the views of the United States on constitutional government, its unalterable opposition to government set up by the irregular and arbitrary acts of ambitious individuals and formally announces that the government of Victoriano Huerta shall not be recognized.

The United States had proposed that a constitutional election be held and that Huerta should not be a candidate. To these suggestions, through which the United States believes peace could be restored, Huerta replied in the negative. Foreign governments generally since that rejection have been active in support of the American policy to persuade Huerta to yield.

CLEAR \$1500 IN A YEAR FROM ONE ACRE OF LAND

There are not many men who can make \$1500 from an acre of land and there is not many acres that can be made to yield that amount under any condition.

Some eighteen months ago a Japanese boy was working here for \$30 a month, he made a mistake and got fired. He was a good worker, had some money saved up and took a lease on piece of ground, just a little over an acre. He planted this to celery, kept an accurate account and his books show that he actually made \$1500 from that acre of celery. He can tell you how many plants he raised and what he received for them and also what he expended to raise the crop.

Celery requires special soil and conditions and there are few places in which it can be grown successfully, but it is produced in many fields in a way and of a kind. There is not a local market for many to engage in the raising of celery, but there are many other things that will yield well if cultivated with the same care and thought.

FORMER ONTARIO BOY CAPTURES HOLDUP IN SALT LAKE

Allen Cortright, a former Ontario high school football star, was the hero of the hour when with a brilliant flying tackle he captured Arthur Gruber, who is now in the city jail in Salt Lake charged with holding up Harry Mannis, a Greek confectioner, early Saturday morning.

Cortright, now a hotel clerk, in Salt Lake, heard a cry of "stop thief." He saw a man running and gave chase. A leaping tackle brought the fugitive to the ground. Gruber begged "for God's sake, pal, let me go," but was held for the police and confessed at the station. He said it was his first job and said he threw the gun away in flight. It was later found. Gruber's companion in the holdup escaped with the money. "Flying tackles are not barred," said Cortright, so I went after him." Both were bruised in the fall.

MAURY I. DIGGS

Maury I. Diggs, one of the defendants in the famous California white slave case, who was convicted.

SULZER RECEIVES UP-STATE SUPPORT

Albany, N. Y.—Governor Sulzer showed interest in the report from the assembly districts throughout the state, indicating that many of the up-state assemblymen who had opposed his direct primary bill or had voted for impeachment were being refused designation by their party committees. The governor declined to comment on any of the changes being wrought in the personnel of the assembly, but seemed to take it for granted that public sentiment was strongly in his favor.

The most significant changes in the designations for the assembly is considered the turn-down of Assemblyman T. K. Smith for another term by Francis A. Hendricks, the Onondaga county Republican leader. Smith was one of the seven Republican members who voted to impeach Governor Sulzer and is now serving his third term from a strong Republican district.

Sulzer's Enemies Now Under Fire.

New York.—The indictment of Charles F. Murphy, leader of Tammany Hall; Aaron J. Levy, leader of the Democratic majority in the assembly, and James Frawley, chairman of the committee which investigated Governor Sulzer's campaign contributions, has been requested of the district attorneys of New York and Albany counties by Lynn J. Arnold, of Albany, an ardent Sulzer supporter.

Refuses to Whip Man

Klamath Falls.—Sheriff Charles Low declared that he would refuse to administer a whipping to William Pew, who was convicted of wife beating before Justice E. W. Gowen and sentenced to 15 lashes. Upon being informed that Justice Gowen had threatened to institute contempt proceedings if the sentence of the court were not executed, Low said he would serve a term in jail before he would use the lash on Pew.

Ranks of Voters May be Doubled

Salem.—That the enfranchisement of women may be double the total registration in Oregon is the belief of the men who have made a study of registration figures in Secretary of State Olcott's office. The conclusions are based on reports of registrations from the various counties from June 3 to August 15.

"PONY" HELD UP FOR A FEW MINUTES

There Was No Harm Done—She Simply Wanted to Go to Vale

WAS ONLY A SLIGHT MISTAKE

There was a pathetic scene at the depot Saturday morning when the west bound pony pulled out. The train crew were hurrying with the baggage and express after helping on all the passengers in sight, when a lady, accompanied by a herd of youngsters, sauntered up to the depot and leisurely went to look for hand baggage, while the youngsters had to be herded away from the trucks of the train.

The train started up and then the woman commenced to wave her arms and scream, while the children jolted in the chorus, all trying to get on the morning train. The train was stopped the children herded on, when the woman discovered a basket was missing and a messenger hurried away to look up the stray, meanwhile the train and all the passengers were kept waiting. Finally the basket was brought out and the woman started to get on the train when the brakeman asked her where she wished to go. No one but the brakeman heard the reply and he did not say anything, he didn't dare, but the expression on his face as he clamped up the steps and got the youngsters and baby buggy off and gave the signal to start was enough. The woman then leisurely walked over to the Vale train and got aboard.

FRUIT PACKING HOUSES OPEN UP FOR SEASON

The fruit packing houses of N. A. Jacobson, Nick Brofferson, Denny Co., and the Idaho Oregon Distributors have all started operations this week on the pack of prunes. The quality of the prune crop in the Payette valley is exceptionally good this year and good prices are expected. The first car of cantaloupes was shipped out Thursday signifying the opening of the cantaloupe season in earnest. It is estimated that from two to three cars will go out daily until the season closes.

EASTERN OREGON PIONEER DIES SUNDAY AT PRINEVILLE

Mary E. Hinton, relict of the late B. D. Hinton, who died in 1900, died in Prineville August 24, aged 70 years.

Mrs. Hinton was born in Arkansas, crossed the plains in 1853, settling at Eugene and moved to eastern Oregon in 1879. Her husband was a half brother of W. W. Hinton, of this place. There are eight children living and two dead. Mrs. Robert Odell is the only one living near here.

Mrs. Hinton was sick for a long time and her death was not unexpected. The burial took place in Prineville Monday.

Mrs. Odell has been in Prineville some time doing what she could to make the last hours of her mother pleasant.

AN ENTERPRISING YOUTH.

The papers had a good deal to say last spring about several boys who had saved and wisely invested their money. Here's an Owyhee boy, Willie Schweizer, twelve year old son of Mr. and Mrs. Gus Schweizer, who may also be cited as a shining example of thrift and industry. He has from his personal earnings paid for a registered Jersey heifer, costing \$150, from the noted Stewart dairy herd of near Albany, Oregon. He also purchased a registered Jersey bull, also costing \$150, from a fine herd near Hubbard, Oregon home of sleek and high priced aristocracy of Jerseydom. He is now saving to purchase more registered stock. Beside these animals he has a mare and colt and he takes care of his property.—Nyas Journal.

MALHEUR COUNTY FAIR ONLY TWO WEEKS OFF

Good Crops Insure Great Agricultural Exhibits—Thousands of Dollars to be Given in Prizes and Premiums --A Splendid Racing Program Arranged and Numerous Other High Class Features Which will Make the Fair the Greatest Ever Held in Eastern Oregon.

It is only a little over two weeks before the Malheur county fair will open with the largest and best display ever gathered in any county. The crops have been unusually good this year and more farmers are taking an interest and gathering exhibits than ever before so that every inch of the big pavilion is going to be crowded and exhibitors should get their products at the building early and avoid as much of the rush as possible.

The race program has been arranged, providing for harness and saddle races each day, with motor cycles, wild mule races, wild horse races, roping contests, bucking contests and the many other stunts indulged in by the cowboys. This last feature is under the management of Baker Ball and he is out now arranging for the last lot of horses and stears for these events. The horsemen of this section have been working with the fair management in selecting the worst buckers and wildest horses on the range and will have them here to try the mettle of the riders. Some of them are willing to bet that the riders will pull leather or go in the air. The people should not overlook the educational features that will be offered by the teachers from the Orevallis Agricultural college. These will be presented in the mornings and evenings and not interfere with the amusements. Bring in the boys and girls and let them see how the professors judge stock and determine the good cow from the poor one, it will be worth dollars to them. This feature is arranged for the farmers, fruit growers, gardeners, dairymen, horse men and chicken men and it is up to them to take advantage of it. All those having rooms to rent should list them with Secretary Grauel, at the city hall. Special trains will run from Boise Thursday and from Brogan Wednesday and Friday. Four bands have been engaged to furnish the music.
