

Time For Hard Work Is Now at Hand

V. W. MARSDEN TAKES THE LEAD

Miss Gretchen Hailey Wins the Prize
This Week.

In hundreds of families in this section of the country the McIntyre automobile contest is the absorbing topic of conversation these days.

The close of the race is a short four months away and the contestants and their friends are certainly making every minute of this time count. As the end of the race draws closer the value and desirability of the McIntyre seem to increase in proportion. As we heard one excited candidate say the other day, "My, that automobile does look good. I'm so afraid I won't win." That girl has an excellent chance of winning. We know that she has been working regularly and is doing it now. She stands well up in the race and above all she is afraid she will not win.

This very fear of hers is liable to prove her strongest asset. There is nothing like a wholesome respect for the other candidate to urge a contestant along. Half confidence and over confidence have lost more contests, and other ventures as well, than almost any other one cause.

THE PRIZES.

We desire at this time to again impress upon all contestants and their friends the extreme desirability of the prizes. Seldom are prizes of equal value given in a contest. The retail price of the McIntyre F. P. '12, with regular equipment, is \$1,500; with top, windshield and speedometer it is \$1,650. The prizes are sure to go to someone for far less effort than they are worth, or for less effort than it would require to earn money enough to buy them.

Swift on the road, strong on the hills, steady, durable and reliable, the McIntyre is a machine which anyone may well be proud to own. Selected both for its beauty and its reliability, it is a prize which is worth a vast amount of effort. Today it is anybody's. Four months from today it will belong to some particular person.

Why should you not be the one who will enjoy the rides and tours in it? Why should you not be able to come home at night, tired from a day's work, and sweep away the cobwebs by a refreshing spin through the country air. These privileges are yours if you work.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout
the State During the Past
Week.

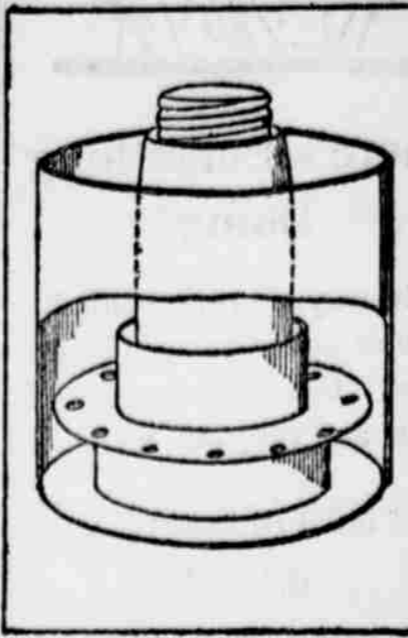

Cross Makes New Grain

Oregon City.—A new and unnamed grain has been grown by P. O. Chindgren, a farmer at Mulino, after a series of experiments with the corn-wheat and the Egyptian species of the grain. For the past two or three years the farmer has been studying the possibility of crossing the two kinds of wheat. Samples now in the rooms of the Oregon City commercial club show that he has been highly successful. The grain produces a stalk about eight feet long and heads that are much larger and better than either of the old kinds. No name has been selected for the new grain.

Board Says West Unjust to Morson
Salem, Or.—Declaring that they would not be parties to a "persecution" of the Deschutes Land company, and would do everything in their power to get the federal government to extend the contract with the state for two years, Treasurer Kay, Attorney-General Crawford and State Engineer Lewis have issued a signed statement explaining their position as members of the Desert Land Board in the controversy with Governor West. Governor West, in answer to the statement defending The Deschutes Land Company, calls J. E. Morson, president of the company, a "shoe-string promoter."

HELPFUL HINTS FOR HOUSEWIVES

Utensil For Cooking Preserves In Jars.

Some housewives in cooking their preserves perform that operation in the jars or cans in which they (the preserves) are to be kept. Unfortunately when the water boils vigorously it sometimes upsets the jars and spills their contents in the boiler. A Nebraska woman has designed a cooking utensil which prevents this accident. Two rings of different diameters, for different size jars and cans, and flat, perforated plate make up the equipment. One of the rings acts as a support for the plate, and on top of the plate the other ring sits and forms a guard for the jar, to prevent it upsetting. The water can boil freely through the perforations in the plate, and this little platform keeps the top of the jar above the top of the water, so none can get into it.

Fruitists' Decorations.

The new fruit decorated crapes, etamines and sponges help fill the demand for odd and striking color combinations and afford relief from the familiar floral decorations or the somewhat overworked conventional designs shown on Balkan embroidery and post impressionist fabrics. The decorations of the fruitists, as the designers of these patterns are called, are not apples or plums or grapes or any other fruits ever seen by man, but they suggest fruit, nevertheless, and are interesting both in form and color.

Helpful Hints.

To boil milk, without fear of burning, place three or four tablespoonfuls of water in the pan, let it boil rapidly a minute or two, then add the milk.

A little bit of soap added to the starch will make the clothes iron better and have a lovely gloss.

For a nervous headache, knot the hair high on the head, remove the waist and, while bending over the wash basin, apply a sponge soaked in hot water to the back of the neck. Repeat this several times and the pain will disappear.

Chocolate Pie.

One pint of milk, one heaping tablespoonful of corn starch, yolks of two eggs, sugar to taste and chocolate to taste. Bananas or coconut may be used with this same custard, omitting the chocolate, adding extract to taste, placing bananas in the bottom of baked pastry shell and pouring custard over them. Finish with meringue made of whites of two eggs beaten till stiff; then beat into them four tablespoonfuls of granulated sugar; spread on pie; brown in oven.

Oatmeal Cookies.

Cream three-fourths of a cupful of butter with one cupful of sugar and add two well beaten eggs. Sift three-fourths of a teaspoonful of soda into two cupfuls of flour, add one-half a teaspoonful of salt, one teaspoonful of cinnamon. Now add to the mixture two cupfuls of uncooked rolled oats and one scant cupful of chopped raisins sprinkled with a little flour. Drop by the teaspoonful into a greased pan and bake in moderate oven.

Sour Cream Sauce.

When cream is only slightly sour it may be made delicious to serve with puddings, etc., in the following way: Put it into a basin with the juice of a lemon and a tablespoonful of sugar and whip until quite stiff. This treatment makes it excellent and increases the quantity at the same time.

A Paint Cleaner.

Save the tea leaves for a few days, then steep them in a pail for half an hour; strain and use the tea to clean varnished wood. It requires very little polish, as the tea acts as a strong detergent, cleaning the paint from all impurities and making it equal to new.

Chicken Croquettes.

Two pounds of chicken meat chopped or ground fine, two eggs beaten, one slice of bread crumbed, one-half cupful of sweet cream, one tablespoonful of butter, salt and pepper. Make into balls, dip in eggs, then in cracker crumbs and fry.

Baby's Bib.

A dress shield may be cut in half and each half used as the lining for the baby's bib. Make a removable cover of linen or lawn edged with lace or embroidery.

We are Showing
Fall Models
IN
High-Art
AND
Broadway
Suits

For Men and Young Men. | "Ajax" Clothes for Boys

They embody every outside refinement and quality as well as inside workmanship--that makes the staying qualities, so pronounced in these famous makes. Woolens, Patterns and Models that we are showing are the results of weeks of careful consideration, by our buyer.

High-Art Suits 16 to \$25
Broadway Suits \$15

We want to show them to every man and young man in this section

OF INTEREST TO MOTHERS!

Our Showing of "Ajax" Clothes for Boys

The assortments are large and varied \$2.50 to \$6 in colorings and styles. Prices from

Your time and money will be well spent fitting your boy out here.
