Meats packed in Economy jars, Kerr Glass Mfg. Co., dozen jars—Mrs. J. W. Klinefelter.

Steak May Be \$1 a Pound.
Chicago—Unless there is an increase in the meat production in the United States in the next ten years, porterhouse steak will be selling at more than a dollar a pound, according to Gustav Blachhoff of St. Louis, president of the American Meat Packers' association, which began its annual meeting here Monday.

NEWS FROM OUR NATIONAL CAPITAL

Desire to Talk Will Prolong the Passage of Currency Bill at Special Session.

Washington.—There is no reason to doubt that congress will pass a currency bill, in a form acceptable to President Wilson, but there will be a great deal of surprise if the currency bill passes as soon as the president wishes; that is, at the present special session. The president unquestionably has the democratic majority in both senate and house working in complete harmony with his legislative plans, and from that majority he can get exactly what he wants in the way of legislation. The majority, however, cannot fix the time for voting in the senate, and for that reason the president is likely to be disappointed over the delay in completing the Glass-Owen bill.

Under the rules of the senate, debate in that body cannot be limited, even by the party in power, and a vote cannot be forced except by unanimous consent.

From present indications a great many democrats, as well as most republicans in the senate, will desire to speak on the currency bill. With the general desire to talk it will be difficult to get a vote on the currency bill within two months, and there will not be two months remaining after the currency bill is reported to the senate.

Tariff Bill May Bring Trade War.

Apprehension lest the Democratic tariff bill lead foreign nations to impose tariff penalties against the United States as soon as the new law goes into effect caused administration and senate leaders to plan the introduction of a joint resolution in congress making specific provision for the continuation of existing relations with all countries until President Wilson has time to negotiate new trade agreements.

The seriousness of the situation was impressed on Chairman Simmons, of the senate finance committee, by state department officials. It was pointed out that the trade relations established by President Taft's proclamations under the Payne-Aldrich law of 1909 would terminate as soon as the new law becomes effective, and that the United States then would face the possibility of having higher tariff rates applied against its exports by many countries.

Alcohol Duty Favored.

The tariff conferees have agreed to Senator Lane's proposal to make more liberal the regulations concerning the manufacture of denatured alcohol, with a view to facilitate its manufacture by farmers from their waste products.

It is also possible that a small duty, for which Senator Lane has contended, may also be assessed. If this is done, Senator Lane believes importations will provide a material amount of revenue and considerably aid farmers and other domestic manufacturers of the product.

Slavery Common in Philippines.

Secretary Garrison had before him a Philippine slavery report by W. H. Phipps, auditor for the islands, backing up the startling charges of Dean Worcester. It cites details of many cases of boys and girls sold into slavery at prices ranging from \$50 to \$100 and says that heads of savage families sell their daughters and regard the practice as right.

"I have no hesitancy in saying that I think the charges of Secretary Worcester that slavery exists in the Philippines are sustained," says Mr. Phipps.

National Capital Brevities.

Navies of the world will be invited to join in a great demonstration at Hampton Roads to celebrate the opening of the Panama canal.

Coinage changes in the new nickel have led many people to believe that the coins are counterfeit. The United States treasury department gives assurance that the new nickel is genuine.

The currency bill has passed the house by a vote of 286 to 84. The measure goes to the senate with President Wilson's endorsement.

amendments offered by the minority are rejected.

A campaign to raise the Progressive party strength in the house has been started. Nineteen progressives of the house and Senator Miles Poin-dexter were named on the committee, with Representative Rinebaugh as chairman.

Exhibits intended for the Panama-Pacific exposition of 1915 may now enter the United States duty free. President Wilson signed the bill enacting into law this exception to the existing tariff law.

The war department has been asked by financial interests of Wall street to increase the number of soldiers on Governor's Island. It is feared that violence may result from mobs and foreign uprisings. The island is near the financial center.
