the best the market affords

There's none so blind as those who will not see!

There is always one best Grocery Store in each town. While we do not wish to throw bouquets at ourselves, we do think that we have the best one in Ontario. It is our policy to not advertise prices, but if you are interested enough to come in and ask the prices of our Groceries you will understand why we say, "There is none so blind as those who will not see."

Our Store is to Ontario as Sterling is to Silver.

Wilson Bros. & Co.
The Grocers

ROUND THE WORLD

St. Louis hotels now employ only negro waiters.

Rents in Hongkong have advanced 24 per cent since the Chinese revolution.

New Orleans refuses to employ married women as public school teachers.

Duluth has put into service a combination automobile patrol and emergency ambulance.

Chicago health board offers free typhoid fever serum inoculation to 1,000 citizens to popularize the idea.

"Treaty tree," twenty feet in circumference, near Tarrytown, N. Y., famous in history, has just died.

Draining the Zuider Zee of Holland will be undertaken in parts. The first dam will reclaim 500,000 acres.

According to the Canadian Forestry association, 50 per cent of Canada is capable of growing nothing but timber crops.

The old cathedral of St. Louis, New Orleans, has been closed as unsafe, owing to the sinking of the east wall. It was built in 1721.

Known as the kleptograph, a burglar alarm invented by an Italian ignites a flashlight and photographs the intruder who invades the room in which it is set.

Dogwood, the principal source of shuttles for use in cotton mills, is growing scarcer year by year, and various substitutes are being tried, but with no great success.

One of the German navy's dirigible balloons is being fitted with a 40,000 candle power searchlight, capable of illuminating the surface of the sea from a height of 5,000 feet.

Missing his mistress when she came out, a Boston dog waited forty-eight hours at a church door for her appearance and could only be induced to leave when she came after him.

For testing the germinating qualities of seeds quickly an Iowa man has patented a cabinet something like an incubator, warm moisture rising through the walls and dropping on the seed trays.

An ultra modern German institution, the purpose of which is to counteract the evil of haste in the modern business world, is the "slumber saloon," where sixty bunks for noonday naps are provided.

The chief industries of northern Rhodesia are cattle ranching, general farming, tobacco and cotton raising. Citrus fruits also do well. Up to the present there has been but little mineral development.

The integrity of afternoon tea in England has been threatened by some unscrupulous members of the house of commons, who have ordered steaks and heavy food at the hour when the aroma of tea should hold its own.

A machine has been perfected which pours any dry powder into a paper bag, folds the bag, makes a paper box and places bag and a folded circular within it, pastes on a label and seals the box at a rate of 1,500 boxes an hour.

To aid a policeman in controlling a prisoner a Philadelphian has patented gloves with electrodes in the palms which send a powerful current through an unruly man from a storage battery forming a part of the policeman's equipment.

An automatic fire alarm and extinguisher invented in Germany employs a thermostat to ring a bell and liberate large quantities of carbonic acid gas in a room in which it is placed when the temperature rises above the danger point.

A bride's dressing room is to be provided at a church in Madison avenue, New York. The organ loft over the church entrance will be removed, and in its place a beautifully equipped room will be built. Here the bride will be able to put the finishing touches to her attire after the drive to the church.

The coke industry in the United States has now reached in good years the \$100,000,000 mark, and, moreover, there is a steadily growing increase in the proportion of coke made in by-products retort ovens whereby the valuable byproducts of gas, tar, ammonia, etc., are saved to the value of tens of millions of dollars annually.

A life buoy for aerial navigation has been invented by a Nova Scotia man. The parachute is folded in a horizontal position on the tail of the flying machine and attached to the aviator by harness. It is folded by straps connected to electromagnetic releases and on the pressure of a button will open and lift the aviator out of his seat.

The new Chinese dictionary published recently at Shanghai represents five years' labor of many of China's greatest scholars and supersedes as the standard the famous dictionary published in 1716 by the authority of the Emperor Kianghsi. Many scientific words are included in the new dictionary, and many obsolete characters have been dropped.

Alfred Austin, the late poet laureate, was lucky in his work as a journalist. For many years he did his daily task at home with the assistance of a telegraph wire run into his study sixty miles from the London Standard office. His instructions came over the wire, and his editorial article went to town by train. Sometimes he would telegraph the whole article.

Venice is confronted by a serious problem. The city is rapidly gaining in population, and so far no place has been found to accommodate the increase. There are now 30,000 inhabitants in Venice in excess of suitable quarters. Among the many plans discussed is the building of new quarters on the Lido Island. Another plan contemplates an additional town at the mouth of the Brenta river.
