NEWS OF GENERAL. INTEREST IN IDAHO

important Occurrences Of The
Past Week From Cities
In Our State

Receiver's Bond Is Filed.

Nampa.—The bond of E. Smallwood, appointed deputy state bank commissioner and receiver of the Bank of Nampa, Ltd., which failed September 27, was approved by Judge E. Bryan, of the district court. The bond is for amount of \$75,000 in the United States Fidelity & Guaranty Company, and the names of W. D. McReynolds and J. T. Pense of Boise appear on the instrument as attorneys in fact. On the approval of this bond possession of the banking house and its assets were at once turned over to Mr. Smallwood.

Water Users Make Charges.

Caldwell.—Charges attacking the integrity of Watermaster John E. Badley of the Payette-Boise Water Users' Association were preferred in the form of a resolution presented by W. H. Kollenborn during a meeting of the directors of the association, held in Caldwell. The resolution charges that Badley, in his official capacity, wilfully and maliciously charged for water when there was no water in the canal, that he overcharged for the use of water, and that he discriminated in the distribution of water.

Not Guilty, Plea of Constan.

Wallace.—John W. Constant, former deputy sheriff, against whom eight separate informations were filed in the district court charging the misappropriation of county funds in as many instances, entered a plea of not guilty to the charges. No date was set for the trial because Prosecuting Attorney Fox intimated that he would probably make application for a change of the place of trials. In case a change of venue is taken it will probably be to Kootenai county.

IDaho Apple Crop Short

Canyon County Will Harvest 60 Per Cent of Last Year's Yield.

Nampa.—The apple crop of Canyon county, one of the largest producers of the Northwest, this season will be about 60 per cent of last year's crop, according to local representatives of the Pacific Fruit Express, who will handle all the shipments. The quality, on an average, is considered much better than last year and growers expect better prices.

The harvest is now in full swing and the various district fruit growers' associations of the county are busy with the packing and shipping campaign. The local association has commenced packing in earnest and all available help is being employed. To date only Jonathan, Wine Sap and Rome Beauty varieties are being packed. They are assorted into fancy and extra fancy grades.

On account of the apparent shortage in the apple crop of the Northwest this season the North Pacific Fruit Distributors, of which the local association is a unit, will adopt a "special" grade, including all the product not eligible to the other two grades.

THE MARKETS.

LINED FACES.

They Are Often Due to Thoughtless Childish Grimaces.

The wrinkles on many middle aged faces could be traced to establish griances. Every one bears much of smiling eyes. Probably they owe much of their popularity to the fact that they do not produce wrinkles. The smile which creases the face into dozens of fine lines does produce wrinkles. Grinaces are in the same class with this face lining smile. They should be disengaged.

Many children, too, perform little tricks with various parts of the body which result in awkward or ungraceful habits which are later hard to overcome. For instance, the double jointed child who can bend his thumbs and fingers in all directions often does so to the admiring wonder of his playmates, until his knuckles are enlarged and misshapen.

The small boy that can swing from his arms is sometimes cheered, even by his elders, into dislocating a shoulder. The little girl whose parents smile at her when she walks pigeon toed sometimes does so until she has formed a habit of walking with her toes turned in.

Far be it from any one to discourage childlike play. Gymnastics and all sorts of bodily exercise, if properly directed, lead to agility and strength. But children should be discouraged from indulging in grimaces and "tricks" which will in time distort their features and bodies.

Wrinkles just beginning to form are comparatively easily conquered, and this good reason should send every woman off to her cream jar as soon as they begin to appear. For one reason or another they are ignored; powder and liquids leaving a deposit on the skin will conceal them for a time, but they are there, nevertheless, and some day they cannot be hidden, no matter how you cream and powder, and then, tearfully, a woman takes her wrinkles seriously and admits her years of willful neglect.

A very simple cream for plumping the skin contains lanolin, two ounces; cocoa butter, two ounces; sweet almond oil, two ounces. To this may be added a few drops of any favorite perfume. An excellent emollient cream for flesh making used on the arms as well as the neck is prepared in the following manner: Fresh lard, one gram; alcohol (80 per cent), twenty grams; essence of rosemary, eleven drops; essence of bergamot, eleven drops.

Rub the hands and wrists with a liberal amount of olive oil to which has been added a few drops of benzoin. This not only acts as a food, but as a whitener as well. A pair of loose gloves from which the finger tips have been cut worn at night will aid.

Troop Train Wreck Kills 20 Soldiers.

Meridian, Miss.—Twenty soldiers were killed and about 100 hurt when a special troop train on the Mobile & Ohio railroad was wrecked. On the train were 179 officers and men, all members of Company 17, coast artillery, U. S. A.
