Entered in the postoffice at Ontario, Oregon, for transmission through the mails as second-class matter.

M. E. BAIN, Publisher.

We are particularly gratified with the spirit of hearty good feeling manifested by the Ontario Commercial club in response to the request of the Owyhee Irrigation district that they cooperate with them in the matter of acquiring government aid for the Owyhee project. Ontario has shown herself to be progressive and we feel that their help in this matter means much to the success of the project. They have a Commercial club that is a live wire for advancement.—Nysa Journal.

The above is merely another evidence of the policy that actuates the Ontario Commercial club and that has proven such a success. What benefits one part of Malheur county benefits all and while the lands under the Owyhee project are all south and west of Nysa all other parts of the county will be benefitted by the reclaiming of these lands.

Boise is boosting for a local cooperative cheese factory having a daily capacity of from 5000 to 8000 pounds. The terms of the officers of the Vale land office will expire soon and there is a general scramble for the pie counter by Democrats and near Democrats who need the money, as well as by men who have been consistent party men all their lives. S. F. Taylor, of Ontario, was the first to file an application for the position of register and there is no question of his qualifications from a business standpoint. Tom Jones, of Vale, is also a candidate. For the receivership M. N. Fegly, the Jordan Valley editor and B. W. Mulkey, the Vale banker, are candidates.

According to the Payette papers there is a big increase of trade noticeable since her merchants have inaugurated a campaign for more business. The buying public appreciate live merchants.

## Skin Sufferers—Read!

We want all skin sufferers who have suffered for many years the tortures of disease and who have sought medical aid in vain, to read this.

We, as old established druggists of this community, wish to recommend to you a product that has given many relief and may mean the end of your agony. The product is a mild, simple wash, not a patent medicine concocted of various worthless drugs, but a scientific compound made of well known antiseptic ingredients. It is made in the D.D.D. laboratories of Chicago and is called the D.D.D. Prescription for Eczema.

This is a doctor's special prescription—one that has effected many wonderful cures.

The effect of D. D. D. is to soothe instantly, as soon as applied; then it penetrates the pores, destroys and throws off all disease germs and leaves the skin clean and healthy.

We are so confident of the marvelous power of D. D. D. that we have taken advantage of the manufacturers guarantee, to offer you a full-size bottle on trial. You are to judge the merits of the remedy in your own particular case. If it doesn't help you, it costs you nothing.
