

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

"Fire Finders" Will Be Used in Baker.
Baker.—New methods of protection from forest fire damage planned by the Baker County Forest Fire Protective association for the coming year include two "fire finders." The "fire finder" is a new device to this section. It will locate a forest fire within a radius of approximately 30 miles. An assessment of 1 per cent per acre on all the land represented by the membership will provide a fund of over \$2000 for this purpose.

Boys in a "Brigand's" Cave.
Roseburg.—"Don't you go near there if you don't want a bullet shot into you," Wilford Simmons, age 16, told Constable Singleton when the officer expressed his intention to search a cave near Cottage Grove which young Simmons confessed he and some other boys had fitted up like the home of a brigand, and which, he said, was guarded continually by an armed sentinel.

State Water Laws Hit By Court.
La Grande.—State laws governing the state water board insofar as it declares that the board has power to make water appurtenant to certain property, that is, water assigned to a specified tract of land for irrigation, be used perpetually on that tract and no other, have been declared unconstitutional by Circuit Judge Knowles.

Child is Deserted.
St. Helens.—Called to a deserted barn near West St. Helens on Tuesday morning, March 17, where Gus Hegele had found a child evidently intentionally deserted by its parents, Deputy Sheriff Lake kept the matter secret till last Friday, saying he had a clew he wished to run down.

Wife-Murder Charge Preferred.
Eugene.—Charged with causing the death of his wife by poison, Andrew H. Bossen, of Springfield Junction, was arrested on the county road as he was bringing his mother-in-law and her daughter to Eugene, and he was lodged in jail without bonds.

EDUCATE TO PLAY GAMES
Pamphlet Prepared by Superintendent Churchill to Go to All Schools.

Salem.—Play and education, equipment, types of school buildings, and special days, athletic meets and athletic badge tests, field meets and other forms of exercise are topics discussed in a pamphlet which Superintendent Churchill is distributing among the schools of the state. Mr. Churchill's idea is to teach the children how to play wholesome games and have recesses devoted to such instead of leaving the children standing about basements and school grounds, when they should be getting needed exercise.

It has been found that in many schools the children do not know how to play wholesome games that were played years ago and that many of the teachers do not remember them well enough to teach them. This bulletin gives a large list of games suitable for the various grades, carefully classified, with full directions how to play each game.

Delegates Are Invited.
Salem.—Governor West has been asked to appoint delegates for Oregon to the second national conference on marketing and farm credits to be held in Chicago beginning April 14. Markets and credits in the various states will be discussed with the object of bettering conditions. Persons desiring to be appointed delegates to the conference are invited to communicate with the governor.

Fight on Scab Promised.
Hood River.—Professor H. S. Jackson, of the Oregon agricultural college, has procured the services of Professor L. P. Henderson, formerly head of the department of botany of the university of Idaho, at Moscow, in conducting experiments with the scab problem that is confronting the growers of the Hood River valley.

Milton Votes Bonds.
Milton.—The proposition to bond the city for \$18,000 for the extension of the intake of the water system, to give pure city water, and for the development of the electric system for supplying power for irrigation of orchard tracts outside the city limits, was carried at the special election, the vote being 120 to 55.

Slayer Gets Prison Term.
Corvallis.—Gust Mamanus, found guilty of manslaughter, was sentenced to serve from one to 15 years in the Oregon state prison.

NEWS OF GENERAL INTEREST IN IDAHO

Important Occurrences Of The Past Week From Cities In Our State

Idaho Drys Confident.
Boise.—Confident that they have already won their victory in making Idaho dry, 2000 delegates and anti-saloon sympathizers closed a three-day state-wide prohibition convention here when an address was made by I. N. McNash, president of the Spokane University.

The convention adopted resolutions calling on the next Legislature not only to pass a state-wide prohibition law but a constitutional amendment to be submitted to the people for their approval making Idaho permanently dry; to support only those candidates for the legislature who come out openly against the liquor traffic and such candidates for governor, lieutenant-governor and other offices who take the same stand. The resolutions call upon all political parties to place in their platforms a state-wide prohibition plank.

Slide Halts Traffic.
Montour.—With one landslide conservatively estimated at 25,000 yards blocking the track with earth and rock to a depth of from three to 20 feet and carrying with it forest trees from the mountain side, some of them as large as 36 inches in diameter, the Idaho Northern branch of the Oregon Short Line is again tied up and unable to operate trains further than Banks.

Club to Help Keep Week.
Lewiston.—The Lewiston commercial club is co-operating with the Idaho state league of commercial bodies to observe properly Home Industry week, April 13-19. In carrying on the work it was found that some of the smaller commercial bodies have not planned to take part in the celebration because they said they had nothing in their towns which could be exploited.

Genesee Lays Horse Show Plans.
Genesee.—The management of the Horse Show held a meeting here, decided on a two days' show and different committees were appointed to look after the different affairs of that day. One of the features of the day will be a real Indian war dance. The Nez-perce tribe will have charge of this.

CORN ACREAGE INCREASED
Prize Won at Dallas, Tex., Stimulate Farmers to Plant.

Lewiston.—Three or four years ago it was generally believed that corn in commercial quantities could not be grown in Idaho. Only within the last two years has the corn crop really amounted to anything. The year past thousands of acres were planted to corn and the quantity and quality produced shows that Idaho is one of the coming corn states of the country.

If anyone were still unconvinced of the fact that Idaho leads the world as a corn state, the recent awards given this state at the National Corn exposition at Dallas, Tex., would be sufficient to convince him. Official reports of results there have been received and show that Idaho leads. This state won the cash prize for the best ear of corn and the Indian trophy, worth \$1000, for the best ten ears of corn exhibited. The prizes are officially known as zone sweepstakes for the best single ear and for the best ten ears.

Idaho also won the grand championship of the world on alfalfa seed and second in the world in alfalfa seed, third in the world on red clover seed and fourth in the world on timothy seed.

Judge Walters Will Retire.
Shoshone.—The announced intention of Judge Edward A. Walters not to seek another term on the bench of the Fourth district, but to resume practice at the bar after the expiration of his present term, was confirmed by the judge himself. He expects to remain in Idaho.

Justice Stewart is Better.
Coeur d'Alene.—The condition of Justice George Stewart of the supreme court, who suffered a partial paralytic stroke, is believed to be somewhat better, but he is still considered in a precarious condition. His mental faculties apparently are less cloudy than they were, but his vocal powers show no improvement.

Bull Moose Meet at Twin Falls.
Twin Falls.—The progressive county central committee decided on a full state and county ticket this fall, urged reduction in taxes and advocated state-wide prohibition.

Form Corn and Pig Clubs.
Emmett.—The boys of Emmett have organized a corn club of 18 members. A pig club has also been organized with 13 members. These clubs will compete for the prizes offered by the state authorities.

HARVARD LEADS IN CONGRESS.

Has Forty Representatives There, While Yale Has Only Ten.

Cambridge, Mass.—Harvard university takes all the honors in representation in the Sixty-third congress, with Yale running a poor second and Princeton in third place. There are seventeen graduates of Harvard in the house of representatives, many of whom are from Massachusetts, and there are twenty-three Harvard alumni in the senate.

The total Harvard representation is forty. Yale, which is runner up in the collegiate political competition, has a total of ten, with five alumni in the house and five in the senate. Princeton, with a graduate in the chief magistrate's chair, has two graduates in the house and two in the senate.

MAY WAR ON CATS.

Extirpation Is Asked by a Game Protective Association.

Tacoma, Wash.—The domestic cat is doomed if the recommendations adopted by the Pierce county branch of the Washington State Game Protective and Propagation association, at its annual meeting at the Tacoma hotel, is adopted by the Pierce county game commission.

War on tabby was declared because she has turned out to be an enemy of game and a destroyer of wild life.

The association requests the commission to offer a small bounty for each domestic cat killed to further extermination.

Mule Footed Hogs Sell High.

South Boston, Va.—E. B. Craddock of Chester Springs, Va., has been raising mule footed hogs in quantities for four years. He sells them for a big price. They are said to be immune from cholera, but this is disputed.

SHE GAVE UP ALL HOPE

Physicians Failed to Help Mrs. Green, But She Finally Found Relief in Cardul.

Meetez, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well.

One day, I decided to try some Cardul. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life.

The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardul will do for sick women."

A few doses of Cardul at the right time, will save many a big doctor bill by preventing serious sickness.

It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardul. Suppose you try it.

It may be just the medicine you need.

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for women," sent in plain wrapper, on request.

Close Your Door on the Thief, Carelessness

CURRENCY in the pocket DEPRECIATES. In the bank it EXPANDS. A person with a \$100 check in his pocket likely will go all day without cashing it. With a similar amount of currency there is a tendency to SPEND A LITTLE. The check remains intact so it is with a bank account. A person likes to KEEP IT INTACT.

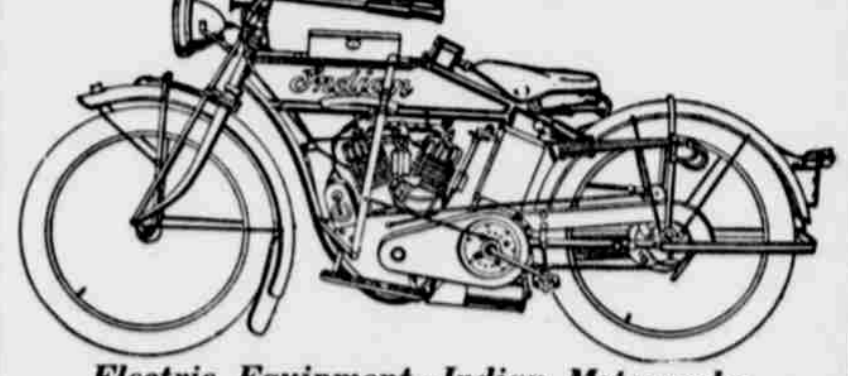

The Ontario National Bank

BUTTER WRAPPERS Must Be Printed

We are printing more wrappers than any other two offices in this section. There is a reason. We have the machinery, type and workmen necessary and we take the same care with Butter wrappers that we do with wedding invitations.
