FRUITLAND NEWS ITEMS

Ex Governor Gooding was here last Wednesday making new friends and expressing his desire to become a candidate for U. S. senator.

Miss Elizabeth Reid left last week for a 3 weeks visit at her old home in Nebraska.

Mr. and Mrs. Chris Myer were here a few days last week.

About twenty of Elsie Blomstrom's friends met at her home last Thursday to help her celebrate her sixteenth birthday. Ice cream, cake and punch were served and all had a fine time.

Mr. Lyon and two daughters from Minneapolis arrived Sunday for a visit at the home of Mr. Lyon's daughter, Mrs. H. R. Frost. They left Tuesday for Denver.

The Ladies Aid of the M. E. church will meet this Thursday afternoon at the Epworth Hall.

Mrs. Crispin Wright is enjoying a visit with her sister Miss Fanny Lane who is a teacher in Chicago and will spend her vacation here.

E. E. Hunter returned home Saturday evening from his place above New Plymouth where he had been for several days doing some improvement work.

The W. C. T. U. met with Mrs. Madsen Tuesday this week.

Miss Aphie Robinson entertained at her home Monday evening Edgar and Adra Vestal, Earl and Irene Cotton and Esther Russell. A very pleasant evening was spent. Music and light refreshments were the features of the evening.

The Queen Esther Circle will meet this Friday afternoon at the home of the Vice President Miss Olive Hunter.

Miss Bessie Griep has gone to Albion where she will attend the Normal this summer. She will teach the first grade in the school here next school year.

July first our Payette Valley railroad was taken over by the Oregon Short Line. It is reported we will get the regular freight rates which will be some what lower than we have had to pay. Heavier track will be laid so the heavier trains can run this way and handle the ever increasing crops of this section.

Friends here of Mr. and Mrs. Bert Forts and family are sorry to learn of the death of Mrs. Forts July 7. The bereaved ones have the heartfelt sympathy of all who know them.

Mr. Albert White formerly mail carrier on this route had the honor of being chosen at the rural carriers' convention at Boise the third of this month a delegate to the national convention which meets in Washington July 11, 12, 13 and 14, and he expects to take his vacation this year in a trip to the capital.

Rev. James Colvin will preach at the Presbyterian church next Sabbath.

Married:

In Ontario, Oregon, Thursday July 9, 1914, at 4 o'clock, the home of the bride's parents, Miss Zeda McNulty to Mr. Homer H. Rambo, Rev. Philip König of the Congregational church officiating.

The contracting parties are both well known in Ontario. The charming and accomplished bride is the eldest daughter of Mr. and Mrs. J. T. McNulty who for two years taught in the public schools of Ontario. The young man of her choice is temperate and industrious with a very promising future. He is one of the coming men of eastern Oregon.

Friends of both the bride and groom witnessed the ceremony. The house was beautifully and elaborately decorated for the occasion. After the ceremonies a sumptuous wedding dinner was served, Miss Claudia Barton and Miss Viola Husted doing the serving.

Presents were many and valuable. The bride, receiving congratulations tossed her bouquet, which was caught by her sister, Miss Ethel McNulty.

Mr. and Mrs. Rambo will travel and visit among friends for some time, after which they will return to Ontario and begin housekeeping.

The "PROTECTIVE TARIFF Cyclopedia," prepared and published by the American Protective Tariff League, New York, will be ready for distribution on or about August 1st. The Cyclopedia will contain the official text of the Underwood law; the Underwood and Payne-Aldrich laws compared giving every rate of duty on articles in both laws; what one hundred and fifty two United States Senators and Congressmen said for and against the Underwood bill, and a copious index of over 8,000 citations. The volume will consist of about nine hundred (900) pages and will answer all questions on the Tariff Question.

FORMS OF HICCUGH

Allied to the rare forms of nervous hiccough there is also the emotional hiccough, which arises in connection with a moral shock, severe fright and sudden emotion, the hiccough due to irritation and hysterical hiccough. The latter is a particularly noisy form, with a rough, coarse sound. It is sometimes a sort of yelping or barking noise, persisting for some minutes or even hours. Cheap, newly made beer is liable to bring them, so stick to a standard like golden grain belt beers, advertisement.

Old papers at the Argus office—25 cents per hundred. Just what you need to line your cabins and place under the carpet.

Drayage orders taken at Moore Hotel John Ladingham, residence Phone 424

George Chip, of New Canaan, Pa., aspirant for the middleweight championship, knocked out "Fighting" Billy Murray, of Petaluma, Cal., at San Francisco, in the 15th round of their 20-round fight.

Reprimand Awaits Evans. Philadelphia. — Brigadier-General Evans, former commander of the department of the east, will be privately reprimanded by the president in consequence of a speech at a recent banquet in New York in which General Evans is said to have made indiscreet references to the foreign policy of the United States.

MUCH GAME IN MICHIGAN.

48,000 Deer in the State, 5,000 Bears and Only 34 Moose.

Marquette, Mich.—According to J. H. McGillivray, deputy state forestry warden, there are 48,000 deer in Michigan—44,000 in the upper peninsula and 4,000 in the northern part of the area south of the strait of Mackinac.

Mr. McGillivray says there are known to be thirty-four moose in the state. He estimates the number of wild animals and birds, other than deer, as follows: Rabbits, 2,500,000; raccoons, 50,000; mink, 70,000; foxes, 100,000; polecats, 170,000; otters, 18,000; beavers, 8,000; bears, 5,000; partridges, 500,000.

He suggests that hunting in the southern peninsula be prohibited for five years and that at the close of that period the killing of deer be restricted to those with moose.

It is the purpose of the state game and forestry warden's department to introduce the ringed neck pheasant in Michigan. This bird was loosed in New York several years ago for the first time, and it has now so multiplied that the legislature contemplates an open season for it. The pheasant will be established in Michigan in the game refuges, provision for the institution of which was made by the last legislature. Private individuals have donated considerable money and much land for the establishment of breeding places.

WOULD BE SMALLEST MAYOR.

Fort Worth Judge, Three Feet Nine Inches, Has Political Ambitions.
Fort Worth, Tex.—Judge C. J. Daugherty, seventy-two, height three feet nine inches and weight seventy-two pounds, opened his campaign for mayor of Fort Worth by an address in the police court room in the city hall.

Mounted on the rostrum, he gave his views of municipal affairs to a mixed audience until Judge Bardin required the room for court purposes.

According to Judge Daugherty's platform, he stands for regulation of the prices of merchandise and other advanced steps. His cards announce that his candidacy is subject to the action of the independent party. The reverse side announces his physical proportions, sixteen years' service as county judge of Callahan county, six years as county judge of Reeves county and a "clean record, independent of all cliques, clans and parties."

UNITED STATES LEADS THE WORLD IN WEALTH

Statistician Proves American Superiority Over All.

London.—The wealth of the United States—income producing property of all kinds, including land, factories and railroads—is now not far from double that of any other country on earth, according to Sir George Paish of the Statist. He figures that the increase in wealth of the four chief nations in the last century has been 580 per cent in Britain, 400 per cent in France, 700 per cent in Germany and 8,500 per cent in the United States. The wealth of these countries now stands, he says, as follows:

France	\$10,000,000,000
Germany	80,000,000,000
Britain	85,000,000,000
United States	150,000,000,000

The increases in population in these four countries in the last century have been as follows: One hundred and thirty per cent in Britain, 33 per cent in France, 180 per cent in Germany and 1,125 per cent in the United States. The annual savings of these peoples is now about as follows:

France	\$1,000,000,000
Germany	1,500,000,000
Britain	2,000,000,000
United States	4,000,000,000

The expansion of banking and credit, Sir George says, is responsible for these vast increases in national wealth and industrial development. About \$2,250,000,000 of British money is now employed in the discount of international bills, and at least \$20,000,000,000 of British capital is yearly invested in colonial and foreign countries. France yearly invests over \$100,000,000 abroad and now has a total of \$10,000,000,000 thus invested. Germany's foreign investments are \$250,000,000 a year and now total \$8,000,000,000.

In the whole of North and South America there is now invested \$20,000,000,000 of foreign capital, including the investments of the United States in Mexico, Canada and other countries. About \$6,000,000,000 of foreign capital is invested in the United States; \$3,500,000,000 invested in Canada; \$2,500,000,000 in Argentina, and \$1,500,000,000 in Brazil; \$2,500,000,000 in Australia and New Zealand, and \$2,500,000,000 in South Africa. About \$4,000,000,000 of foreign capital is invested in Russia.

MECHANICAL FLEA COMING.

Tiny Flying Boat, Said to Be Fastest in Country, to Enter Big Race.
Hammondsport, N. Y.—Francis S. Wildman, chief instructor of the Curtiss flying school, announced that he will fly the Mechanical Flea soon.

The Mechanical Flea is a tiny monoplane flying boat and is supposed to be the fastest air-water machine in this country. It was built at the Curtiss factory in January for Raymond V. Morris. The Flea has done seventy six miles an hour in still air.

GEORGE F. WILLIAMS

George Fred Williams, American Minister to Greece, who was asked to resign, owing to his criticism of conditions in Albania.

Brief News of the Week

Greece paid the United States \$12,000,000 for the battleships Mississippi and Idaho.

France's loan of \$161,000,000 a three and a half per cent was subscribed by people of France 40 times over.

The four new dreadnoughts ordered but yet not named will be known as Arizona, California, Idaho and Mississippi.

Georgia and South Carolina were once in a tropical climate according to the statement of the geological survey department of the government.

The First National Bank of Uniontown, Pa., is said to have declared a dividend of 700 per cent to its stockholders in order to dodge the new currency law.

Six persons killed and property damage of hundreds of thousands of dollars was the toll of cloudbursts and electrical storms in the Lebanon valley and anthracite regions of Pennsylvania.

American men who profess to follow fashion's decree will wear suits of the English, or form-fitting, models this fall and winter, according to the standards approved at the opening session of the National Association of Manufacturing Clothiers and Designers' convention.

Estimates that the total wheat crop would approach the billion-bushel mark—930,000,000 bushels, to be more nearly exact—and be the greatest wheat crop ever grown were given out by the department of agriculture. The estimate for corn was 2,868,000,000 bushels.

Women's rights were recognized to the fullest extent by the National Educational Association, which passed resolutions indorsing woman suffrage and equal pay for teachers, regardless of sex, and allotted five of the ten vice presidencies to women. Without a dissenting vote, Dr. David Starr Jordan was elected president of the association for the ensuing year. Oakland, Cal., was chosen as the meeting place next year.

People in the News

Governor Cox of Ohio refused to call out state troops to guard coal mines because of alleged threats by strikers to blow up the plants.

James B. Wilson, ex-conductor of the Baltimore & Ohio railroad was awarded \$75,000 damages for injuries received while working for the road 62 hours out of 72, by a jury in Chicago.

City Controller Samuel White of Louisville, Ky., was arrested on a charge of embezzlement following the discovery of an alleged shortage of \$14,500 in the accounts.

Lumber men were told by S. Wood of Boston while at Seattle, that the Panama canal would open a new trade on the Atlantic coast and he urged them to make more of the finished product in the future.

Declaring that women offenders should fare in the same manner as men offenders, Miss Laura Middaugh, acting police judge at Kansas City, fined two of her sex \$100 and \$300 respectively, for maintaining liquor nuisances.

It is announced that George Fred Williams, former minister of the United States to Greece was piqued because when, on a recent trip to investigate the Albanian situation for the president he was not recognized by the international commission.

Mrs. Florence Conklin Carman, wife of Dr. Edwin Carman, was arrested at Freeport, N. Y., accused of being the assassin who murdered Mrs. Louise Bailey wife of a Hempstead manufacturer, by firing a bullet through her heart while she was standing in the physician's office.

ALL MODEST CROWS FLEE.

Figure of Woman in Modern Attire Horrifies the Pests.

Marquette, Wis.—Crows had been working great havoc with the newly planted cornfields of Howard Smithson, a young farmer, until he went to Milwaukee and got an idea from the fashions disported by women.

He went back and made a transformation of a male scarecrow with which the crows had become so friendly that they perched on its mimic gun. The upper part of the figure he dressed with a low necked garment and the lower part with a slit skirt. He fastened the hair low over the forehead, hiding the ears, and upon the head he set a waving plume.

Soon after a flock of crows came hovering over the field. They were just preparing to alight when they beheld such a figure as had never before met their gaze. With one mighty caw they flew away.

If you don't believe it ask Smithson.

OBJECTS TO FIVE YARD KISS.

Embrace Shouldn't Exceed Yard of Film, Says Woman Censor.

Philadelphia.—A kiss more than a yard long on a moving picture film, or thirty-six seconds, as osculatory embraces are usually measured, will be barred henceforth by the new state moving picture censorship board if Mrs. Cyrus Niver, its only woman member, has her way. Mrs. Niver has spent several weeks watching and measuring kisses in romantic drama films.

As a result she is convinced that an embrace occupying five yards of perfectly good film, such as she has seen, should be reduced by four yards, inasmuch as thirty-six seconds, or one yard of kiss, is enough for any reasonable osculation.

AT 69 WEDS HANDY MAN.

Husband is Seventy-six, but He Will Milk Cows and Do Chores.

Kansas City, Kan.—John G. Beck, seventy-six years old, of Kansas City, Mo., and Mrs. Lydia Reeves, sixty-nine years old, of this city, were married in Kansas City, Kan.

"I've got a cow at home, and I thought it would be handy to have some one to get up in the morning and milk it for me," Mrs. Reeves told H. P. McPherson, license clerk, while they were getting the license.

"I became acquainted with Mr. Beck through an old soldier friend of his at the Soldiers' home at Leavenworth," said the bride. "It was love at first sight, and, besides, it's handy to have a man around the house."

ARMY OFFERS PRIZES FOR BEST AEROPLANES

To Divide \$30,000 Among Three Winners.

Washington.—After having been handicapped for years by congress in their efforts to keep abreast of aeronautics in the armies of the world, officials of the war department at last have obtained a suitable appropriation and have arranged important plans for developing the army aeronautic corps. With an appropriation of \$250,000 available, Brigadier General George P. Scriven, chief signal officer, with the aid of Lieutenant Colonel Samuel Reber, assistant chief, has drawn up plans for a general competition among American inventors and builders of aeroplanes.

A purse of \$30,000 is announced to be distributed among the builders of the best three machines, each of a distinctive type. For the machine of first merit \$12,000 will be paid, for the second \$10,000 and for the third \$8,000. Part of the appropriation will be spent in buying a score of other aeroplanes of the most desirable type at regular prices. It is estimated that the additional machines can be bought for from \$5,000 to \$7,000 each from the manufacturer, or possibly the army may obtain the exclusive right of building its own machines at less cost.

The remarkable strides in aviation made within the last few years by the more progressive European armies have spurred the army authorities to the determination to build a formidable fleet of aeroplanes. The successful operation of aeroplanes in the recent Balkan wars and in Mexico has demonstrated to their minds, the necessity of the American army no longer remaining behind those of Europe in this respect. The work of the American naval aeronauts at Vera Cruz has been pronounced by both army and navy experts as a demonstration of their practicability and undisputed value in time of war.

WATER WAGON KILLS OWL.

Eight Years Without Drink, Succumbs to Draft.

Vineland, N. J.—A pet horned owl belonging to Mrs. Frank W. Flood, which had not tasted water for eight years, got a drink the other night because the weather was so warm. Immediately the bird went into convulsions. Sinking its talons through Mrs. Flood's hand, it died, with the death clench so tight that Dr. George Cunningham had to be sent for to release the woman and dress the wound.

The fancier of whom the Floods bought the bird said water would have the same effect on the bird it has on a mad dog.

Ontario Druggist Has Valuable Agency.
A local druggist has the Ontario agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ca, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of old matter from the body that JUST ONE DOSE relieves sour stomach and constipation almost IMMEDIATELY. THE QUICK action of Adler-i-ca is astonishing.

NOTICE
THE ONTARIO MARKET has the Exclusive Agency of the **Weiser Creamery Butter** selling now at 30 cents per pound
