Another Resort.

It may be too early to predict all that the opening of another resort will mean for Ontario, but we may reasonably assure ourselves of some things. It will attract to us, among others, those who are experienced in vice and who can teach our young folks in all its ways.

Where the debauchee and the innocent may freely associate together and drink soda pop and lager beer at the same table results are quite sure to follow.

Some mother's girl will soon learn the taste of beer and wine and that other sin, as well, and start on her downward road to sin and death.

Boys who are barred from the common saloons will find in such a place an open gateway to drunkenness and debauchery.

If the advocates of temperance legislation should take advantage of this situation and advertise it to the world and plead it as a cause for making Oregon dry this fall, it might in some way hurt the reputation of our fair city.

We fear the minds of the people are not quite ready to receive the English grog shop or the Dutch beer garden with their attendant vices, where girls are bar maids and little children are employed to handle intoxicating liquors.

And too, we must expect the world to measure our moral calibre of our officials by the things which exist in our city, and we take as the duty of every citizen to help protect the good name of those in authority.

AMY ODELL

ATTEMPTED ASSAULT.

Last Saturday night a girl of about fourteen years of age was lost from her mother and sister in the crowd. After a few minutes search, not being able to locate them she started home. Near the place she was to leave Main street she noticed three men following her, who sudden-

ly disappeared. This caused her to quicken her steps. As she was about to pass an alley the three men surrounded her. By her quickness and presence of mind the young lady made her escape to the home of a friend who took her in and later conducted her safely to her own home.

This girl is not in the habit of being on the street alone nor in the companionship of other girls unchaperoned.

What about the girls who are on the street a good part of the time. They need a mother who will "count them every night."

Splendors of the Panama-Pacific International Exposition Revealed by Progress at San Francisco.

SUPERB WORKS OF SCULPTURE AND ART IN COLOSSAL EXHIBIT PALACES FOR AMERICA'S PANAMA CANAL CELEBRATION.

Glints of gold from vast oriental domes. Venetian blue on minarets. Prigorous works of sculpture and the arrival of notables from all parts of the globe give glimpses of the great Panama-Pacific International Exposition as it will appear when its gates swing open to the world in San Francisco on Feb. 20, 1915.

Not for many years will the world be enabled to enjoy so marvelous a collection of the works of contemporary sculptors. The World's Columbian Exposition at Chicago first proved that the greatest talent might be engaged to produce work of even temporary value. Since then more and more attention has been given at each succeeding exposition to sculpture as a form of decoration, and the great Panama-Pacific International Exposition at San Francisco promises to surpass even Chicago's exquisite display.

Every phase of the exposition is far advanced. Thirty-four of the world's nations will participate with government displays, Argentina leading with a government appropriation of \$1,300,000 gold.

AIRSHIPS WILL RACE AROUND THE GLOBE FROM SAN FRANCISCO IN 1915.

AERONAUTS from all the civilized nations of the globe with every standard type of air craft driven by motors will participate in an aerial race around the world, which will be a feature of the sporting events to be held during the Panama-Pacific International Exposition at San Francisco in 1915. The race will start from the grounds of the Exposition in May, 1915, and will end there. Three hundred thousand dollars has been hung up in prizes for this stupendous world grilling contest. A number of the world's greatest aviators have signified their intention of entering the races. The recent flight of Stoeffler, ending at Mulhausen, Germany, in which he covered 1,375 miles, convinces aviators that long flights are a matter of adequate supply stations. The above photograph shows the route around the world and the various supply stations.

FIRE SWEEPS 1010 ACRES

Wheat on Ennes' Ranch in Walla Walla County Burned.

Walla Walla, Wash.—The biggest and most spectacular grain fire in the history of the valley destroyed 1010 acres of standing wheat on the Ennes estate ranch, defying efforts of hundreds of volunteer fighters for hours. The damage will be between \$40,000 and \$50,000, well insured.

It was with difficulty that the buildings on the Ennis farm were saved. After hours of work the fire was finally put out. It was confined almost entirely to the Ennes tract, which covers nearly two sections of the finest wheat land in the valley. The yield this year had been estimated at 50 bushels to the acre.

THOMPSON GOES TO MALHEUR COUNTY

S. C. He will probably be indicted in Malheur county and then taken to Salem to finish his penitentiary term to which he was sentenced from this county, escaping when he was sent out as an "honor man" by the governor to work on the roads.—Baker Democrat.
