**OREGON STATE LEGISLATURE  
MAKES GOOD PROGRESS**

Salem.—Although three weeks of the 28th legislative session have slipped by with all the big measures still to be passed upon by both houses, yet really more progress has been made during the first half of the present session than during the same period in many previous sessions. Practically all the important bills have been introduced and many of them have received attention from the various committees and are in shape to be passed upon. The beginning of the fourth week of the session found both houses in shape to get down to business, and unless there is an unusual flow of oratory much serious work will be accomplished.

The bill to do away with the petition-peddling that created such a stir in the house last week will be back from the revision of laws committee this week. It was recommitted with instruction to amend so that candidates may have the option of filing for office either by the petition route or by paying a cash fee to the county or state authorities.

The section requiring a candidate to support his or her successful opponent in case of defeat also will be stricken out or modified. In that shape the bill may get through the house.

The prohibition bill was reported back to the house in the form of a substitute for the original measure with the favorable recommendations of the committee on alcoholic traffic.

The bill remains in substantially the same form as when originally drawn by the Committee of One Hundred and introduced by Dr. Anderson. It has been amended, however, but has more teeth in nearly every section.

Probably the most pronounced change is in the limit set on the amount of liquor that can be shipped in for home consumption. The bill now fixes this quantity at either two quarts of whisky or 15 quarts of beer in a month. The original bill specified no limit.

Appropriations for six state institutions are provided for in as many bills introduced in the house by the ways and means committees of the house

and senate. The amount allotted reaches a total of \$1,389,050.80. The corresponding appropriations for 1913 and 1911, respectively, were \$1,634,797.11 and \$1,555,233.45. The current appropriation, therefore, shows an apparent saving of about \$245,000 over two years ago.

The death knell of Senator Languth's bill permitting women to serve on juries was sounded so far as this session is concerned, when the minority report of the judiciary committee was adopted and the measure was postponed indefinitely. Favorable action had previously been taken by the senate on the measure, but it was recalled from the house and reconsidered.

Qualifications for county school superintendents were "tightened up" by the house when it passed the Hinkle bill providing that persons holding this office must have at least 27 months' actual experience in teaching school and hold a state teachers' certificate. Twelve months' of the past experience must have been had in Oregon.

The house passed Dr. J. E. Anderson's bill appropriating \$6000 for the experiment station at Hood River.

For the second time in three days the house voted not to repeal the physical examination marriage law, passed at the 1913 session.

Senator Dimick's bill providing that sacks of shorts shall weigh 80 pounds, passed the senate, was reconsidered and indefinitely postponed.

The house passed Representative Huston's bill empowering the governor to fill vacancies in the office of United States senator, pending a regular election.

Miss Towne's bill for an increase of the length of the rural school terms from six months to eight months, was defeated in the house.

By a vote of 15 to 12, the senate adopted the majority report of the judiciary committee that the bill repealing the law passed at the 1911 session providing that school districts may furnish free textbooks, be passed.

Senator Farrell's bill providing for a reduction of 20 per cent of salaries

**SUBMARINE SINKS  
VESSELS OFF HAVRE**

(Special to The Argus.)

London.—The toll taken by the German submarine U-21 in its raid Saturday in the Irish Sea in the vicinity of Liverpool, stands at three ships, the steamers Ben Cruachen, Linda Blanche and the Kilcoan, the latter a small vessel. The crew of the Kilcoan was landed on the Isle of Man by a coastwise steamer.

In addition a German submarine also has torpedoed two British steamers in the English channel near Havre—the Toko Maru and the Icaria. The Irish Sea raider easily made her escape and shipping interests, confident that she has returned to her base, ordered a resumption of normal traffic.

This under-water Emden is the same vessel which last September torpedoed in the North Sea, the British cruiser Pathfinder, with a loss of 246 lives, and later destroyed two British steamers off Havre. She found numerous vessels in the waters to which she has centered her activities. In addition to the three vessels she is known to have sunk, at least five other steamers were chased by her.

These include the steamer Graphic, with 100 passengers and a crew of 40, and the smaller boats, Atrous, Ava, Kathleen and Edymion. All these vessels escaped in a zig-zag flight.

**Inventor of Barbed Wire Dies.**  
San Diego, Cal.—Henry W. Putnam, 90, inventor and philanthropist, is dead at his palatial home in this city. He was the inventor of barbed wire and horseshoe nails.

of county and state officers receiving \$3000 or more a year was defeated by the senate.

At a conference called by Governor Withycombe, at which Senator Kathryn Clark, of Douglas; Attorney-General Brown and the members of the senate judiciary committee were present, it was virtually decided to abandon the object sought in senate joint resolution No. 15, to empower the executive to remove district attorneys and sheriffs in case he becomes convinced that they are not performing in good faith their official duties.
