

The New Dress Goods For Spring Are In

The Two Most Fashionable Fabrics of the Season—Serges and Garbadines—are here in Big Variety of Grades and All Colors.

Serges 50c to \$1.25 yard
Garbadines \$1.00 per yard

If you have looked forward to seeing wool dress goods of unusual beauty and originality for the new season you will not be disappointed. In weave coloring and pattern these fabrics will undoubtedly prove even more satisfactory than you expect—they are superb! They appear to much better advantage when made up into garments, of course.

A general idea of what is most favored may be gained from the following. Owing to the change in silhouette slightly stiffer weaves and finishes are adopted in addition to the more staple fabrics of soft finish, serges, gabardines, checks, coverts, poplins and Barathea weaves are the favorites. Colors are of neutral and soft character such as sand, putty and tan. Pure black and white, gray together with various shades of blue are represented.

To more completely inform yourself regarding the new wool dress fabrics you should come and inspect this assortment today. We are featuring serges and gabardines particularly as these will be the most popular fabrics this Spring.

Wednesday, March 3—W. S. Mitch-ell, Baker; E. I. Brogan, Vale; H. Y. Blackwell, Portland.

FACTORY OWNERS ARRESTED

Men Who Had Killed Deer for Their Hides Captured.

Marshfield.—Game Wardens Powell and Adams of Gold Beach, Curry coun-ty, made a raid on the owners of the Brown Glove factory, and arrested them on a charge of killing deer for the purpose of securing the hides.

The men were found on Pistol river, and were taken before a justice of the peace at Gold Beach. George Fischer, the leader, was fined \$300, and sen-

tenced to six months in jail. A man named Clifford was fined \$150. Von Norwick and Robertson, two others were fined \$50.

The men went to Curry county last July on the gasoline schooner Rustler and made for the mountains, where it has been found they have been killing deer for their hides. Their prey in-cluded does and fawns as well as bucks.

It is estimated that they have se-cured 400 hides. About 75 of these have been recovered by the officers. Deputies Adams and Powell have been working on the case for a long time.

It is said that the ranchers have found many carcasses in the woods, left to rot after the hides were re-moved.

Vivian Martin in "The Wishing Ring" a Shubert feature will be at the Dreamland Saturday Mar. 6.

What is a Fair Rate?

We do not know what constitutes a basis for rate making and have never heard of anyone who did claim to know much about it, but if the pro-perty of the farm is a factor to be considered and the railroad com-mission concludes that an increase in rates is necessary, we would prefer that it come to us through articles of consumption on their journey from the factory to the farm. We would, for example, prefer that the rate on hogs remain as at present and the rate on meat bear the increase, in any farmer can then avoid the burden by raising his own meat, and a farmer who will not try to raise his own meat ought to be penalized. We think the rate on coal and brick can much better bear an increase than the rate on cotton and flour. We would prefer that the rate on pianos remain the same, and machines, pianos and such articles as the poor farmer cannot hope to possess bear the burden of increase.

The increase in rates should be ar-ranged that the farmer who lives at home will bear no part of the bur-den, but let the farmer who has to travel in other states...

THE STORY OF THE STARS

Flag of freedom and emblem of glory,
Hope of the world in each floating fold,
Long and wild and deathless the story
Flung to the winds when thy stars are unrolled!

The thirteen stars of the fight with Great Britain,
Through strenuous years, by land and by sea,
Till they proved to the world the great words written,
"We are, of right, independent and free!"

The stars of the states of blue-grass and prairie,
The splendid prize of the bold pioneers,
Won from the savage, dark, cruel and wary,
By peril and hardship, by blood and by tears.

The stars of the states of the golden treasure,
Won on the fields of the fiery fray,
Where the Southwest poured its blood without measure,
From the Alamo to Wild Monterey!

The stars of the West of wheat field and forest,
Mountains of silver and mighty stream,
Of deserts where desolation is sores,
Of cities that rise like the towers of a dream.

Year after year, new stars rising glorious
Flood the blue with their clustering light;
Age after age, beloved and victorious,
Still may they stand for freedom and right!
